Features

N NE C T I O N S Electric/hydraulic controls at platform are recessed into the inner boom. Positive over-side at lower station. A spring loaded master control switch is provided. Engine stop and start is one dual action switch. Optional GFCI receptacle (120 V power), on non-insulated units, and optional pneumatic circuits (1 or 2) are located at the end of the boom. Remote lower controls are standard on all models.

M C A I C A I S M Rotation is 360° non-continuous, activated by hydraulically driven worm and spur gears with a shear-bolt rotation bearing. Turret top plate and mast plate are machined to provide a flat surface to support the rotation bearing. Non-lube bearings are used at all points of movement.

H D A L I C S Y S T E M The open circuit hydraulic system operates at 2 000 PSI (141 kg/cm^2) at 2 or 3 GPM (8 or 12 LPM). Sight gauges are furnished for checking fluid levels.

P A T F O The standard fiberglass platform is 24" X 24" X 42" (61 m X .61 m X 1 07 m) Non-insulated models have a step through opening for easy access. Walk in and splicing platforms are also available.

O P Following are some options available, van mount pedestals and risers, taller pedestals hydraulic leveling (on 29 1 and N), continuous rotation, emergency power, two speed manual throttle, pneumatic circuits at the platform, and several platform and capacity variations.

1.1: System Architecture

The CPU

Objectives:

- Define and understand the purpose of the CPU
- Able to label the Von Neumann architecture
- Describe the components of the CPU and their function

A basic computer system

Every computer on the planet has a basic system. It consists of four components: **Input, Output, Processing** and **Storage** in a system like this.

Input → Process ↔ Storage → Output

The CPU

For anything that needs to think, in order to work, it needs a brain. The CPU is the brains of the computer. It processes all its data and works out all its problems to run. Physically, it is in the form of a chip and is located inside the computer motherboard.

In each CPU, there is a **Control Unit** and an **ALU**

Control Unit

The control unit is the main controller for the computer. It controls all flows of data going in and out of the processor.

ALU

The ALU, or **Arithmetic Logic Unit,** performs all decisions for the computer in the forms of arithmetic (maths) or logic (conditionals) for example:

```
IF x < 3 THEN
     PRINT "You need more"
ELSE
     PRINT "You have enough"
```

FORMULA SHEET

Properties of Exponents

1 Multiplication $a^m a^n = a^{m+n}$

2 Division $a^m/a^n = a^{m-n}$

3 Power of a Power $(a^m)^n = a^{mn}$

4 Power of a Product $(ab)^n = a^n b^n$

5 Power of a Quotient $(a/b)^n = a^n/b^n$

6 Zero Exponent $a^0 = 1$

Special Products

1 Square of a binomial
$(a+b)^2 = a^2 + 2ab + b^2$ and $(a-b)^2 = a^2 - 2ab + b^2$

2 Product of the sum and difference of two terms
$(a+b)(a-b) = a^2 - b^2$

Special Factorizations

1 Difference of two squares $a^2 - b^2 = (a+b)(a-b)$

2 Perfect square trinomials $a^2 + 2ab + b^2 = (a+b)$
and $a^2 - 2ab + b^2 = (a-b)^2$

3 Sum of two cubes $a^3 + b^3 = (a+b)(a^2 - ab + b^2)$

4 Difference of two cubes $a^3 - b^3 = (a-b)(a^2 + ab + b^2)$

Distance Formula $d = \sqrt{(x_2 - x_1)^2 + (y_2 - y_1)^2}$

Slope of a line $m = \frac{y_2 - y_1}{x_2 - x_1}$

Equation of Lines

1 point-slope form $y - y_1 = m(x - x_1)$

2 standard form $Ax + By = C$

3 slope-intercept form $y = mx + b$

4 horizontal line $y = c$

5 vertical line $x = c$

Rational Exponent $a^{m/n} = \sqrt[n]{a^m}$

Properties of Radicals

Multiplication $\sqrt[n]{x} \cdot \sqrt[n]{y} = \sqrt[n]{xy}$

Division $\sqrt[n]{x} / \sqrt[n]{y} = \sqrt[n]{x/y}$

Vertex of a Quadratic Function.

1 The x-coordinate of the vertex is $-\frac{b}{2a}$

2 Substitute this answer for x in the equation $f(x) = ax^2 + bx + c$ to find the y-coordinate of the vertex

Sum Difference Product, and Quotient of Two Functions

1 $(f+g)(x) = f(x) + g(x)$

2 $(f-g)(x) = f(x) - g(x)$

3 $(fg)(x) = f(x) g(x)$

4 $(f/g)(x) = f(x)/g(x)$

Composition of Functions

1 $(f \circ g)(x) = f(g(x))$

2 $(g \circ f)(x) = g(f(x))$

Properties of Logarithms

The product rule	$\log_a(uv) = \log_a u + \log_a v$
The quotient rule	$\log_a(u/v) = \log_a u - \log_a v$
The power rule	$\log_a u^n = n \log_a u$
Base-exponent property	$b^{\log_b x} = x \Leftrightarrow \log_b x = y$
Other properties	$\log_b b = 1$
	$\log_b 1 = 0$
	$b^{\log_b n} = n$
	$\log_a(1/v) = \log_a 1 - \log_a v$
	$\log_a u = \log_a v \Leftrightarrow u = v$

Change of Base Formula $\log_a x = \frac{\log_b x}{\log_b a}$

Conic Sections

Parabola $y = ax^2 + bx + c$ or $y = a(x-h)^2 + k$

with vertex (h,k) and axis of symmetry $x = \frac{-b}{2a}$

Parabola $x = ay^2 + by + c$ or $x = a(y-k)^2 + h$

with vertex (h,k) and axis of symmetry $y = \frac{-b}{2a}$

Circle $(x-h)^2 + (y-k)^2 = r^2$ with center (h,k) and radius r

Ellipse $\frac{x^2}{a^2} + \frac{y^2}{b^2} = 1$ with center $(0,0)$

and x-intercepts $(\pm a, 0)$ and y-intercepts $(0, \pm b)$

Hyperbola $\frac{x^2}{a^2} - \frac{y^2}{b^2} = 1$ with center $(0,0)$

and x-intercepts $(\pm a, 0)$ and asymptotes $y = \pm \frac{b}{a} x$

Hyperbola $\frac{y^2}{b^2} - \frac{x^2}{a^2} = 1$ with center $(0,0)$

and y-intercepts $(0, \pm b)$ and asymptotes $y = \pm \frac{b}{a} x$

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 855 330-1799 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax Toy — it's a Fax web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

You will, you'll need an Account PIN to access your account and a Secret Answer in case you ever forget your PIN. Please write them down to be straight.

CHOOSE YOUR ACCOUNT PIN

- 4 must be 6 numbers long
- No more than 3 consecutive numbers in a row (1234 won't work)
- Do not repeat numbers next to each other (44 won't work)
- No symbols or letters (#$%*!@ won't work)

YOUR ACCOUNT PIN: ☐☐☐☐☐☐

AND

YOUR SECRET ANSWER:
What is your favorite city?
Your Secret Answer: _____

IMPORTANT INFORMATION ABOUT THE LIFELINE PROGRAM Assurance Wireless is a Lifeline supported service. Lifeline is a federal benefit, and only one consumer may receive it. Customers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be denied or be kicked from the program. One Lifeline provided service (landline or wireless) is available per household. A household is one or more individuals who live together at the same address and share income and expenses. A household is not permitted to receive Lifeline benefits from multiple providers. Violation of the one-per-household rule or violation of federal rules and will result in de-enrollment from the Lifeline program and possible prosecution by the United States government. Lifeline is a non-transferable benefit. Service cannot be transferred to any individual including a dependent, family member or another consumer.

4 SIGNATURE

By signing below, I certify under penalty of perjury that the information contained within this Application is true and correct to the best of my knowledge.

- I will recertify as a qualifying federal Program or meet the income qualifications to establish eligibility for Lifeline. If proof of eligibility is required, I have provided the required documentation as listed in Section 2.
- If I have provided a temporary address, I must notify Assurance Wireless within 30 days of any change of address. Assurance Wireless will attempt to verify my address every 90 days that I continue to reside at that address. If I do not respond to these address verification attempts within 30 days I will be de-enrolled.
- I will inform Assurance Wireless within 30 days of the following, and may be subject to penalties if I fail to do so:
  - I move to a new address.
  - I no longer participate in a qualifying Program or my annual household income exceeds 135% of the Federal Poverty Guidelines.
  - I become one of the many households receiving more than one Lifeline benefit.
  - For any other reason, I no longer meet the criteria for Federal Lifeline support.
- I authorize Assurance Wireless or its agent to access my records (including financial records) required to verify my statements herein and to confirm my eligibility for Assurance Wireless service. I authorize state or federal agency representatives to discuss with, and/or provide information to, Assurance Wireless verifying my participation in public assistance Programs that qualify me for Assurance Wireless service.
- I authorize Assurance Wireless to provide access to or release any records I may have for the administration of Assurance Wireless service.
- I understand that the completion of this application does not constitute immediate approval for Assurance Wireless service.
- I acknowledge that providing false or fraudulent information to receive Lifeline benefits is punishable by law.

You MUST place a check mark ☑ next to all 3 statements, then sign and date below.

☐ 1. I certify that my household will receive only one Lifeline Assistance benefit (wireless or wireline). To the best of my knowledge, my household (i) is not already receiving such a benefit, or (ii) "I currently receive a Lifeline discount from a different phone service provider. I consent to the transfer of my Lifeline benefit to Assurance Wireless and understand that once the transfer is complete, I will lose my Lifeline program benefit with my current phone service provider AND

☐ 2. I understand that I may be required to re-certify continued eligibility for Lifeline at any time. Failure to do so will result in the termination of my Lifeline benefits AND

☐ 3. I consent to have my personal identification information shared with the Universal Service Administrative Company (USAC) (the Lifeline Program is administered) and/or its agents for the purpose of confirming that neither I nor my household receives more than one Lifeline benefit.

YOUR APPLICATION CANNOT BE APPROVED WITHOUT A CHECK MARK! AND YOUR SIGNATURE.

STOP

☑ Have you provided your Date of Birth and your last 4 digits of SSN?
☑ Have you attached proof of eligibility? (if required)
☑ Have you checked all 3 statements above and signed the Application?

Your family will not receive two services!

lively interest in me several months before there was any possibility of our becoming personally acquainted, first, that I was destined to be unlucky in life; and secondly, that I was privileged to see ghosts and spirits, both these gifts inevitably attaching, as they believed, to all unlucky infants of either gender born towards the small hours on a Friday night.

I need say nothing here on the first head, because nothing can show better than my history whether that prediction was verified or falsified by the result. On the second branch of the question, I will only remark that, unless I am through that part of my inheritance while I was still a baby, I have not come into it yet. But I do not at all complain of having been kept out of this property; and if anybody else should be in the present enjoyment of it, he is heartily welcome to keep it.

I was born with a caul, which was advertised for sale, in the newspapers, at the low price of fifteen guineas. Whether sea-going people were short of money about that time, or were short of faith and preferred cork jackets, I don't know; all I know is, that there was but one solitary bidding, and that was from an attorney connected with the bill-broking business, who offered two pounds in cash, and the balance in sherry, but declined to be guaranteed from drowning on any higher bargain. Consequently the advertisement was withdrawn at a dead loss--for as to sherry, my poor dear mother's own sherry was in the market then--and ten years afterwards, the caul was put up in a raffle

Moses and Jesus are part of a Threesome playing golf one day. Moses pulls up to the tee and drives a long one. The ball lands on the fairway but rolls directly toward a water trap. Quickly, Moses raises his club, the water parts, and the ball rolls to the other side, safe and sound.

Next, Jesus strolls up to the tee and hits a nice long one directly toward the same water trap. It lands right in the center of the pond and kind of hovers over the water. Jesus casually walks out on the water and chips the ball right up onto the green.

Then, the third guy gets up and sort of randomly whacks the ball. It heads out over the fence and into oncoming traffic on a nearby street. It bounces off a truck and hits a nearby tree. From there, it bounces onto the roof of a shack close by and rolls down into the gutter, down the drain spout, out onto the fairway and straight toward the fore-mentioned pond. On the way to the pond, the ball hits a little stone and bounces out over the water and onto a lily pad, where it comes quietly to rest. Suddenly, a very large, bullfrog jumps on the lily pad and snatches the ball into his mouth. Just then, an eagle, swoops down, grabs the frog and flies away. As they pass over the green, the frog squeals with fright and drops the ball, which bounces right into the hole for a beautiful hole in one.

Moses leans over toward Jesus and whispers,
"Do you think your Dad would teach me that shot?"

Obedient Wife

There was a man who had worked all of his life, had saved all of his money, and was a real miser when it came to his money. Just before he died, he said to his wife, "When I die, I want you to take all my money and put it in the casket with me. I want to take my money to the afterlife with me."

And so he got his wife to promise him with all of her heart that when he died, she would put all of the money in the casket with him. Well, he died. He was stretched out in the casket, his wife was sitting there in black, and her friend was sitting next to her.

When they finished the ceremony, just before the undertakers got ready to close the casket, the wife said, "Wait just a minute."

She had a box with her, she came over with the box and put it in the casket. Then the undertakers locked the casket down, and they rolled it away.

So her friend said, "Girl, I know you weren't fool enough to put all that money in there with your husband."

The loyal wife replied, "Listen, I'm a Christian. I can't go back on my word. I promised him that I was going to put that money in that casket with him."

"You mean to tell me you put that money in the casket with him''!?"

"I sure did," said the wife. "I got it all together, put it into my account, and wrote him a check. If he can cash it, he can spend it!"

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St. Joseph I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known

to foil.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere

John 3:16-17-18

"For God so loved the world ,that he gave his only begotten son, that whow-hoever believes in him shall not perish, but have eternal life

For God did not send the son into the world to judge the world, but that the world might be saved through him

He who believes in him is not judged; he who does not believe has been judged; he who does not believe has been judged already, because he has not believed in the name of the only begotten son of God.

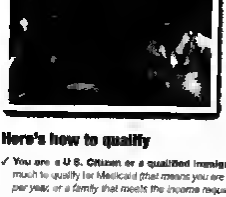
The Essential Plan:

A More Affordable Health Plan for New Yorkers



Starting this November low and moderate income New Yorkers who are struggling to pay for health insurance will be able to get much more affordable comprehensive health care. The Essential Plan (EP) covers all major medical needs and is only available through the *NY State of Health Marketplace*. Even if you already have health insurance, as long as you meet the requirements, you can still enroll!

Emergency Services • Inpatient Hospitalization
Primary Care • Urgent Care • Lab Work
Lab Work • Ambulatory • Prescription Health Care

Here's how to qualify

- ✓ **You are a U.S. Citizen or a qualified immigrant under the age of 65** who earns too much to qualify for Medicaid *(that means you are a single person earning more than $16,242 per year, or a family that meets the income requirements in the chart below)*
- ✓ **You are a "lawfully present" non-citizen under the age of 65** – including green card holders, immigrants fleeing persecution and others – and you are below the Medicaid income eligibility level *(that means you are a single person earning less than $16,242 per year or a family that meets the income requirements in the chart below)*

The EP provides very affordable insurance

When you qualify for the EP, you pay a monthly fee, called a premium of either $0 or $20 depending on your income. There is no deductible, and you can start going to your doctor as soon as you receive your insurance card. You may be required to pay a small fee called a co-payment for services like doctor's visits, hospital stays, and prescription drugs

Look Here To Find Out If You Qualify and How Much You'll Pay

Annual Income By Family Size							
1	2	3	4	5	6	7	8
$17,005	$23,000	$29,135	$35,275	$41,415	$47,555	$53,695	$59,835
$23,640	$31,980	$40,150	$48,500	$56,850	$65,140	$73,490	$81,780

Health Care For All New Yorkers

healthcare for all new yorkers project

To enroll or learn about eligibility, contact NY State of Health:
(855) 355-5777 or www.nystateofhealth.ny.gov

You may also get free one-on-one help from a Navigator or Application Counselor, certified by NY State of Health, who serves your area:
http://info.nystateofhealth.ny.gov/NYSOHAssisterMap

Enrollment in the EP begins November 1, 2015, and will be open all year long. You do not need to wait for the Open Enrollment period established by NY State of Health, but can enroll at any time.

Type of Plan Administrative Fee	Fee Amount
Auditing Fee	Fees and expenses for auditing services charged to the Plan may be charged to and withdrawn from participants and beneficiaries' accounts on a per capita or pro-rata basis.
Consulting Fee	Fees and expenses for consulting services charged to the Plan may be charged to and withdrawn from participants and beneficiaries' accounts on a per capita or pro-rata basis.
Legal Fee	Fees and expenses for legal services charged to the Plan may be charged to and withdrawn from participants and beneficiaries accounts on a per capita or pro-rata basis in proportion to the closing account balance for the last business day prior to deduction of the fee

Part III. Individual Expenses

- **Individual Fees and Expenses.** This chart shows fees and expenses for services provided to you on an individual basis that may be charged to and withdrawn from your account and are not included in the total annual operating expenses of any investments in the Plan.

Type of Individual Fee	Fee Amount
Distribution Fee	$50.00 per distribution. Limited exceptions to this fee may apply when rolling over eligible account balances in an Individual Retirement Account with T. Rowe Price

- **Shareholder Type Fees.** Shareholder type fees, which are not reflected in the total annual operating expenses of any investment options offered under the Plan, may be applicable to certain investments. Such fees could include commissions, sales loads, sales charges, deferred sales charges, redemption fees, surrender charges, exchange fees, account fees, and purchase fees. Refer to section "B. Investment Information" of this document for any shareholder type fees that may be applicable to investments offered under the Plan.

B. Investment Information

Investments in the Plan as of October 4, 2017

This section includes important information to help you compare the investments in the Plan, and is comprised of two parts.

- **Part I** reflects performance information indicating how well the investments have performed in the past.

- **Part II** outlines the fees and expenses applicable to each investment. Fees and expenses are only one of several factors that participants and beneficiaries should consider when making investment decisions. The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings.

If you want additional information about your investment options available in the Plan, including more current performance

Dear Borrower(s):

Enclosed are certain disclosures prepared in connection with your loan application received by FPG LOANS, INC. A DBA OF PROVIDENT FUNDING GROUP, INC.

This loan may be closed by FPG LOANS, INC. A DBA OF PROVIDENT FUNDING GROUP, INC. or at our discretion this loan may be closed by Provident Funding, a division of Colorado Federal Savings Bank.

These disclosures are an important aspect of the mortgage financing process, and are provided in compliance with certain federal and/or state regulations, to assist you in understanding the terms and cost structure of the loan you have applied for, and to provide you with other information about the lender. The rate, fees and payment examples shown in these disclosures are based upon which may change if your interest rate has not been locked and/or there are changes to your application. Any questions that you have regarding these disclosures should be directed to us or your mortgage broker. These disclosures do not constitute a commitment to lend. Your loan application is being evaluated and you will be notified separately regarding the outcome of the evaluation of your loan application and any requirements or conditions such as appraisal, if granted by the lender.

You are encouraged to shop these disclosures or to return them to us.

This packet of Initial Loan Disclosures includes the following documents:

- Federal Truth-in-Lending Disclosure Statement
- Good Faith Estimate of Settlement Charges
- Loan Servicing Disclosure Statement
- Notice Regarding IRS Disclosure (if required)
- Loan Program Disclosure
- Other State-specific disclosures (if required)
- Disclosures for Provident Funding, a division of Colorado Federal Savings Bank

The Good Faith Estimate of Settlement Charges ("GFE") accurately reflects estimates of the fees and charges you may incur at settlement of your loan, actual charges may be different than those reflected on the HUD-1 settlement statement that you receive at closing. The PREPAID FINANCE CHARGES disclosed on the Good Faith are certain charges that you are obligated to pay in connection with the loan and which must be paid by the borrower upon the close of the loan. These charges are defined by the Federal Reserve Board in Regulation Z. Such charges include, but are not limited to: loan origination fee, "points," Private Mortgage Insurance, Tax Service Fee and Settlement Fee. Some charges are specifically excluded from the Prepaid Finance Charge such as Appraisal Fees and Credit Report Fees. The Federal Truth-in-Lending Disclosure Statement ("TIL"), shows the ANNUAL PERCENTAGE RATE, FINANCE CHARGE, AMOUNT FINANCED, TOTAL OF PAYMENTS, and other required information. You will receive a revised TIL SCHEDULE A figures on the TIL are estimates, and are subject to change. You will receive a final Truth-in-Lending Disclosure Statement at closing. The Annual Percentage Rate ("APR") is not the Note rate but is the rate at which your [illegible] APR

Shingled magnetic recording

Retrieved December 14, 2014.

7. Sebastian Anthony (3 December 2015). "HGST releases helium-filled 10TB hard drive, from Seagate's million-shingled legacy". Ars Technica. Retrieved 3 December 2015

Shingled magnetic recording (**SMR**) is a magnetic storage data recording technology used in hard disk drives (HDDs) to increase storage density and overall per-drive storage capacity.[1] Conventional hard disk drives record data by writing non-overlapping magnetic tracks parallel to each other (perpendicular recording), while shingled recording writes new tracks that overlap part of the previously written magnetic track, leaving the previous track narrower and allowing for higher track density. Thus, the tracks partially overlap similar to roof shingles. This approach was selected because physical limitations prevent reading magnetic heads from having the same width as reading heads, leaving recording heads wider.[2][3][4] p. 7–9

The overlapping-tracks architecture may slow down the writing process since writing to one track overwrites adjacent tracks and requires them to be rewritten as well. *Device-managed* SMR devices hide this complexity by managing it in the firmware, presenting an interface like any other hard disk, while other SMR devices are *host-managed* and depend on the operating system to know how to handle the drive, and only write sequentially to certain regions of the drive.[4] p. 11 ff.[5]

Seagate has been shipping device-managed SMR hard drives since September 2013, while referring to an increase in overall hard disk drive capacity of about 25% compared to non-shingled storage.[1] In September 2014, HGST announced a 10 TB drive filled with helium that uses host managed shingled magnetic recording,[6] although in December 2015 it followed this with a 10 TB helium-filled drive that uses conventional non-shingled perpendicular recording.[7]

Windows® Fax and Scan

[illegible]

[illegible]

Easily send faxes using your computer and a fax modem or an external fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started

1. [illegible]

   If you connected more than one fax modem or fax machine, select the one you want to use, and then select the check box next to it.

   Optionally, select the check box next to **Allow this device to receive faxes**.

2. [illegible]

   When you add a scanner or camera, Windows automatically installs the software it needs to work with your computer.

SCAN After you add a scanner or camera to your computer, you can preview, edit, and then save the images or pictures. Before you scan, make sure that your scanner settings are the way you want them. You can change the settings for the scanner or camera.

To scan a picture

1. Make sure your scanner or camera is turned on and connected to your computer. If you haven't already done so, install your scanner and camera software according to the manufacturer's instructions.
2. In Windows Fax and Scan, on the toolbar, click the arrow next to **New Scan**, and then click **Scan**.
3. The New Scan dialog box appears.
4. Choose the scanner or camera you want to use, and then choose the scan settings you want.

DIFFICULT
Space Survival Exercise

In the following situation, your "life" and "death" depends upon how well you can prioritize items for survival in a relatively unfamiliar environment. This problem is fictional, although the ranking to which you will compare your results was done by a number of space experts

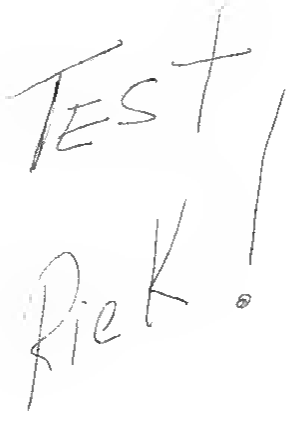
The Situation

You are a member of a lunar exploration crew originally scheduled to rendezvous with a mother ship on the lighted surface of the moon. Due to mechanical difficulties however, your ship was forced to land at a spot some 320 kilometers (200 miles) from the rendezvous point. During the re-entry and landing, much of the equipment aboard was damaged, and, since survival depends on reaching the mother ship, the most critical items available must be chosen for the 320 km trip.

Your Task

On the next page are listed the 15 items left intact and undamaged after landing. Your task is to rank these items according to their importance in aiding you to reach the mother ship, starting with "1" the most important, to "15" the least important. You should assume that your crew is your class, you have agreed to stick together, and all 15 items are in good condition.

When finished reading the above situation and task, each group should start your timer before reading the list of items on the next page.



TEST
Pick!

Human Resources Development specialists may be able to help you with this task.

You may have to identify a human resource gap for your future job. Human resources and training specialists could help you fill any future operational positions and strategies to address gaps in skills. Education and training opportunities for workers will help maintain their job skills and increase their value to the company's competitive position in the international marketplace.

Many companies have specialized computer programs that can help managers or employees find out about training opportunities. If the company does not have such a program, you might want to contact your state employment office or your local chamber of commerce for information on educational institutions in your area.

Some of the training opportunities may be available through correspondence courses. Others may require attendance at classes in the evening or on weekends. Some companies will pay for employees to take courses at local colleges or universities.

Many companies have training programs for workers of all levels, from the newest employee to the president of the company. Training programs may include on-the-job training, apprenticeships, classroom instruction, and self-study courses. Some companies have their own training facilities, while others use those of schools, professional associations, or private training companies.

Training and development (T&D) programs are designed to help workers improve their skills and abilities at this or another job within the company. Some companies require employees to complete training programs before they can be promoted to certain jobs.

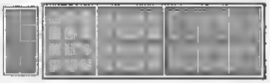
will reduce lost disk space due to slack, and will reduce defragmentation times on partitions containing many relatively-small data files (more on the issues involved in partitioning.) So instead, let's say you want to split up this drive as follows:

- One 8 GB primary partition for Windows and other operating system and program files.
- One 12 GB partition for data.
- One 16 GB partition for games.
- The rest of the disk in a 24 GB partition for large multimedia files, short-term backups and future expansion.

I'm assuming no complicating factors here, just a simple example. To do this, you will first set up a primary DOS partition 8 GB in size. This is the first of your four partitions. You will then create an extended DOS partition that is 52 GB in size. This is the second partition on the hard disk. Within the extended DOS partition you will create three logical volumes: one 12 GB, one 16 GB and one 24 GB. These are your second, third and fourth volumes (logical partitions). The first partition will be your C: drive, from which you boot the machine, and DOS will (normally) assign D:, E: and F: to the other three logical partitions. Your hard disk will have one primary DOS partition, and one extended DOS partition containing three logical DOS volumes.



Graphical depiction of the partitioning of a 60 GB hard disk as described in the example above. Each square represents 1 GB of space on the hard disk. The blue squares are the 8 GB primary partition; the green, red and purple squares are the 12 GB, 16 GB and 24 GB partitions respectively. The latter three partitions are logical partitions contained within an extended DOS partition, indicated by the larger gray-shaded rectangle.

Once the system is set up, there is no functional difference between these partitions other than the fact that C: is the only bootable one and is where all the DOS system files reside. Regular files can reside, wherever you want them to.

PHOTO UPLOAD SWEEPSTAKES
SUCCESS TIPS GUIDE
HELPFUL TIPS TO MAKE IT A SUCCESS FOR YOUR BUSINESS!

YP wants to help make your local business a star sensation by enticing customers to snap and share photos of your business with the Photo Upload Sweepstakes. The more photos your listing has, the more opportunities you have to attract new business.

Print and post the attached poster around your business to let your customers know that they have an opportunity to win a $500 Visa Gift card each week for the next 8 weeks. They simply need to:

1. Snap a photo related to your business.
2. Upload the photo to your YP® business listing.

Everyone has a chance to win. So, you can upload some great photos too!

Print out copies of the attached poster and post them on your storefront, at your cash register and other prominent areas where your customers come in contact with your business.

All business categories can participate. Below are some sample suggestions:

- Restaurants can attach the poster to your menu or place one on each table to encourage your patrons to share a pic of your dining area or their favorite dish.
- Retailers/Service Businesses can post the attached poster on display tables, near cash registers and encourage your sales staff to promote the contest and the opportunity.
- Mention the contest in customer emails/enewsletters and encourage them to enter.
- Refer to the contest in your on-hold messaging.

- Make sure they are in focus!
- Be an actual photo of your business environment and/or products and services (no illustrations, logos, or clipart)
- NOT be an advertisement or include contact information.
- Be less than 5MB in size
- Only be an JPG or PNG format

Visit the YP Facebook page to see weekly winners and maybe the spotlight will be on one of your customers and your business!

Call the YP team today to find out more at 1-800-478-2977 or go to yp.com/photos for full contest rules and regulations.

Our Father which art in heaven,
hallowed be thy name,
thy kingdom come
thy will be done
on earth as it is in heaven
Give us this day our daily bread.
And forgive us our trespasses
as we forgive them that trespass against us
And lead us not into temptation
but deliver us from evil
[For thine is the kingdom,
the power, and the glory,
for ever and ever.]
Amen

Quantitative JAK2 V617F Mutation Analysis by PCR

Result:

Interpretation: A Detected result indicates the presence of the JAK2 V617F mutation. Patients that have a myeloproliferative disorder like JAK2 V617F mutation is associated with this activity. Very rarely, other mutations in JAK2 V617F mutation has been helpful in diagnosing myeloproliferative disorders. A diagnosis should be made using a clinical data. A Not detected result may suggest the patient does not have one of the mutations tested for. The JAK2 assay has a detection limit of 1% mutant allele burden. A result below the limit of detection for this assay. A positive sample result indicates JAK2 exon 12 mutations. Correlation with clinical, hematopathologic, and cytogenetic findings is recommended for complete interpretation of the results. Refer to consensus criteria for diagnostic criteria.

Methodology: JAK2 V617F mutation analysis is based DNA isolation from whole blood or bone marrow aspirate. Exon 12 of JAK2 gene is amplified using specific primers and probes. The amplified DNA is then subjected to real-time PCR using TaqMan chemistry. This assay can detect mutant DNA as low as 1% of the total DNA present. The results are reported as a percentage of mutant DNA. Although the assay is highly sensitive, it is possible that false negative results may occur if the mutant DNA is present at levels below the detection limit of the assay. Additionally, false negative results may occur if the mutation is present in regions of the JAK2 gene that are not targeted by the assay.

Limitations: The JAK2 V617F mutation analysis by PCR assay is a qualitative test for the presence or absence of the JAK2 V617F mutation in human genomic DNA isolated from whole blood or bone marrow aspirate specimens collected from the patient. Myeloproliferative disorders (MPDs) are clonal hematopoietic stem cell disorders characterized by the proliferation of one or more of the myeloid lineages, including erythroid, megakaryocytic, and granulocytic cells. Essential Thrombocythemia (ET) or Idiopathic Myelofibrosis (IMF). A rough estimate of the JAK2 V617F mutation has been detected in other myeloid disorders such as chronic myelomonocytic leukemia (CMML), polycythemia vera (PV), chronic myelogenous leukemia (CML), and the presence of the JAK2 V617F mutation does not exclude the presence of other mutations in the JAK2 gene. The results of this assay should be interpreted in the context of all clinical and laboratory findings. Non-hematopoietic neoplasms do not appear to play a role in these results. A "Not Detected" result may indicate the presence of the JAK2 V617F mutation below the detection limit of the assay.

NEW Stuffed Cheesy Bread

ARE YOU BEING UNDERCHEESED?

Tired of not getting your fair share of cheese? With Domino's new Stuffed Cheesy Bread, we're putting an end to the undercheesing of America once and for all. Choose from three stuffed varieties: Bacon & Jalapeno, Spinach & Feta or Cheese only. Did we take the same amount of cheese on our medium pizza and stuff our new Cheesy Bread inside and on with it? Oh yes we did

Children's museum gets a green light

L.A. City Council OKs funds to enable the vacant facility to be equipped.

By Jessica Romero

A never-used, $98.8-million children's museum in the city-owned Ann Reservation Center in Los Angeles' northern section is back on track to open to audiences after years as a municipal white elephant.

After more than two years of discussions with operators of the newly-built Discovery Science Center in Santa Ana, the City Council has approved putting an additional $10.3 million into the project, which will enable Discovery to equip the 57,000-square-foot San Fernando Valley site with interactive and other science exhibits.

It is expected to open in December 2014. For now, the new museum is being called Discovery Science Center Los Angeles.

The city built the museum in 2007, but it remained vacant because its now-defunct former partner, the Children's Museum of Los Angeles, which had operated a smaller downtown site, failed to raise the money to install exhibits and run it.

The deal saves the city from losing $26.2 million — the amount it would need to pay back its nonparticipation if outers, including the state and federal government, to return a bond to spur by a March 2015 deadline.

Thank years of tough hard work to get here, but today's approval proves how hard work and refusing to give up on a good idea can improve Los Angeles," City Councilman Richard Alarcon said in their board to oversee the museum in an arrangement that will also give Discovery officials in charge and a say.

The hour he and the rest of L.A. else's be not enough to get one. Among identify "It's time to be Los Angeles and that people know and what are invested in making [illegible] we couldn't grow in the Valley."

The Los Angeles Discovery system will duplicate some features from nearby Kidspace Children's Museum in Pasadena, which will include a grocery store that allows museum-goers to learn about the science and [illegible] behind everyday products.

A field called Meeting [illegible] Garden will dovetail with the school science curriculum from kindergarten through eighth grade, serving as a different grade level each month by bringing students to the museum.

In Orange County, Anaheim said, the agency's program is projected to host a total of the 200,000 students it reaches each year by 25 more [illegible] and [illegible] a share of the cost. In Los Angeles he said, the goal is to have all costs covered by donors. One L.A. special exhibit will be a simulated helicopter flight over the city that brings home the science behind engineering and [illegible]

The Discovery center, in the Valley will be less than a mile from the Orange County Science Center in Exposition Park, whose exhibits on the state farming, allows kids to [illegible] and [illegible]

Adams said that the Santa Ana discovery museum, which charges admission of $12.50 to $14.95 and is said nearly from the California Science Center, never relies on any amount of its attendance from Los Angeles County. "The [illegible]

If you do not agree with this decision, you have a right to a state hearing. A state hearing is your opportunity to present your case to a neutral hearing officer. You may present your case yourself or with the help of a friend, relative, attorney or other spokesperson. You may also have your case reviewed informally with the decision maker.

If you want a hearing, you must receive your hearing request within 90 days of the mailing date on this notice. You do not need to return this form to request a hearing.

If we receive your request by 09/10/2011 the action will not be taken until the state hearing is held. If you lose your hearing, you may have to pay back benefits that you were receiving while the hearing was pending.

If someone speaks at your hearing on your behalf, you must provide a written statement signed by you, telling us that person is your representative. Only you can make a request by telephone.

If you want information about free legal services in your area, you may call the Ohio State Legal Services Association toll free at 1-800-589-5888, for the closest number.

If you want a state hearing, check the appropriate box below, sign and date this form. Send it to the Ohio Department of Human Services, State Hearings P.O. Box 8333 Columbus, Ohio, 43215-8333

- [ ] I want a conference, only, and a state hearing on this action
- [ ] I want a state hearing only

Waiver of continuing Benefits (Food Stamps Only)

- [ ] I agree to let the county department of job and family services go ahead with the food stamp action(s) now, even though I have requested a hearing.

HELVETICA REGULAR ROMAN

BODONI BOLD ITALIC

SOMEWHAT ABUSED PUNCTUATION MARKS

5′2″ eyes of blue

PRIME OR INCH MARKS INDICATE FEET OR INCHES

It's a dog's life

APOSTROPHE MARK: CONTRACTION OR POSSESSIVE

He said, "That's what she said."

QUOTATION MARKS SET OFF DIALOGUE

"The thoughtless overuse" of quotation marks is a disgrace upon literary style—and on typographic style as well

TYPE CHIEF

Quotation marks carry out chunks of white space from the edge of the text.

See ASTERISK for more punctuation blowhard.

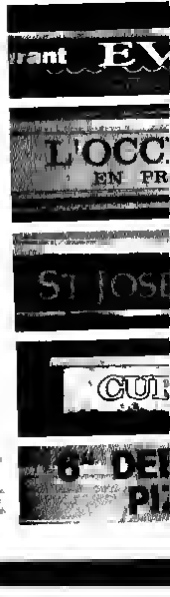
A well-designed comma carries the essence of the typeface down to its delicious details. Helvetica's comma is a chunky square mounted to a jaunty curve, while Bodoni's is a voluptuous thin-pinstriped orb. Designers and editors need to learn various typographic conventions in addition to mastering the grammatical rules of punctuation. A pandemic error is the use of straight prime or hatch marks (often called *dumb quotes*) in place of apostrophes and quotation marks (also known as *curly quotes*, *typographer's quotes*, or *smart quotes*). Double and single quotation marks are represented with four distinct characters, each accessed with a different keystroke combination. Know the keystrokes. It usually falls to the designer to purge the client's manuscript of spurious punctuation.

"Hanging punctuation" prevents quotations and other marks from taking a bite out of the crisp left edge of a text block.

HANGING QUOTATION MARKS

Make a clean edge by pushing the quotation marks into the margin.

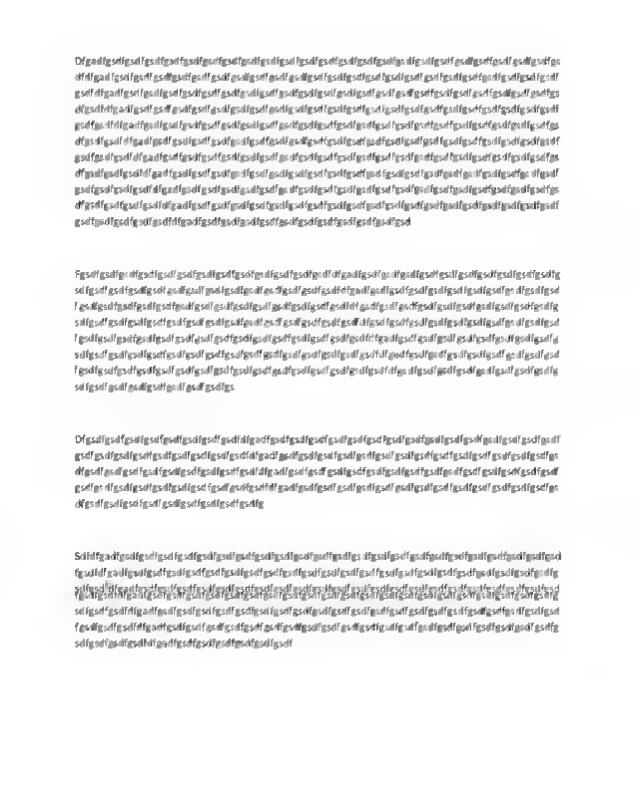
HOW ABOUT To create hanging punctuation in InDesign insert a word space before the quotation mark. Pressing the option key, use the left arrow key to kick the quotation mark into the margin. You can also use the Optical Margin Alignment or Indent to Here tools.



Monthly Income Deductions for Determining Countable Income	Generally the SSI income counting rules apply with certain exceptions • **Special Income Deduction** All disability-based income *does not count* (workmen's compensations, SSA, state and private disability income) • $20 from income (earned or unearned) • **Earned Income Deductions** 1) $65 from earnings + any unused portion of the $20 deduction above; 2) Any impairment-related work expenses that you pay for yourself (Those are out-of-pocket expenses that the applicant need to become or remain employed like maintenance of a specialized van special clothing, attendant care services, transportation costs, medical devices, work related equipment, residential modifications, etc.) 3) half of any remaining earned income. **Example** Mary receives $1000 a month in SSDI benefits She works 8 days a month and grosses $800 She pays a neighbor $10 per day to drive her to work She cannot use a bus because of her panic attacks. Her SSDI does not count Only $217.50 of her earned income counts. ($800 – $20 – $65 = $515 $515 – $65(0.5 X $10) = $435 – 2 = $217.50) Mary is eligible because her countable income ($217) is well below the $2 107 limit Her monthly premium is $20 (see chart on page 1)

Property Limits	Generally SSI property rules apply
	• **Property limits**
	  • **Adults** only the property of the applicant and their spouse counts Single adults cannot have more than $2000 in *countable* property Married couples cannot have more than $3000 in *countable* property
	  • **Children** only the applicant's property and some of the applicant's parents' property counts Applicant cannot have more than $2000 in countable property (A child is defined as someone who is unmarried and not the head of the family and either under age 18 or under age 22 and a student attending school or a vocational training program.)
	• **Exempt property** applicant's home, clothing, one car and certain other things such as items necessary for self-employment (building, inventory, bank account) or used on the job (tools second car, etc.)
	• **Special Property Definition** many dual retirement accounts (IRA) or other retirement plans (like KEOGH or 401(k) plans) do not count even if the applicant has access

Special Factors	• Except for the special income and property exemptions above a beneficiary would be eligible for SSI • Beneficiaries may be terminated with a notice of action if they fail to pay premiums for two consecutive months but the county must redetermine their eligibility (under SB 87) • Undocumented Immigrants are not eligible "Qualified aliens" (i.e. lawful permanent residents, refugees, asylees persons granted withholding of deportation or had lawful entry paroled for at least one year, Cuban Haitian entrants or certain battered spouses and children) are eligible regardless of their date of entry Immigrants who are permanently residing under color of law (PRUCOL) are eligible only if they are lawfully residing in the U.S and receiving SSI on August 22, 1996 • People over 65 may also be in this program
Aid Codes/ Sources of Law	**Aid Codes** 60 **Law** 42 USC §1396a(e)(10)(A)(ii)(XIII); California Welf & Inst Code § 14007.9; DHS ACL 99 16 00 51_01 14_01 20 01-46 02 34 02 39/40 Medical Eligibility Procedure Manual Article 5R; HCFA Letter to State Medicaid Directors (March 9, 1998)



A [illegible] ladder leans against a [illegible] building. The ladder is 20 feet long. The bottom of the ladder is pulled away from the building at a rate of [illegible] feet per second.

(a) How fast is the top of the ladder moving down the side of the building when the top is 12 feet above the ground?

(b) How fast is one angle of the triangle formed by the ladder, building, and ground changing then? (Hint: You will need the value found in part (a).)

(c) At what rate is the area of the triangle formed by the ladder and the ground changing then?

b. Let $f(x) = \sin^{-1}(\frac{x}{2})$

(a) Find the derivative of $f(x)$, $f'(x) = ?$

(b) Use your linearization to approximate $\sin^{-1}(1)$

Po-Joke #24

A nurse is giving a young medical intern a tour of the hospital.
The intern approaches one bedridden patient and asks, "Why are you here?" The patient replies, "Wee sleekit cowerin' timorous beastie/O what a panic is in thy breastie."
The intern moves on to the next bed and asks the same question. "Why are you here?" The patient answers, "O my luv is like a red, red, rose that's newly sprung in June."
The intern moves on to a third bed and asks again. "Why are you here" to which the third patient replies, "The best laid plans of mice and men may often gang awry."
At this the intern turns to the nurse and asks "What ward is this anyway?" And the nurse answers "It's the Burns Unit."

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 888-877 1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Because Defendants' course decisions survive rational basis scrutiny (*see* Part II.B.1.c of this Order), Defendants are entitled to summary judgment on Plaintiffs' as-applied equal protection claims.

III. RULING

Because Plaintiffs fail to raise any genuine issue of material fact to support their as-applied claims, Defendants' Motion is GRANTED.

IT IS SO ORDERED.

Subject: News About Your Habeas Corpus Case

Dear Patricia,

This is a second attempt to obtain a response from you. I am finishing a new Petition for Writ of Habeas Corpus for you, based upon the newly discovered evidence provided by Dr. Mohammed Ali Al-Bayati, a pathologist who examined Destiny's medical records and autopsy materials. It will be done by Monday July 30, 2007. We will file with the court, once we receive a written reply from you acknowledging that you want us to continue fighting for you.

The Abused Parents Alliance (APA) is making arrangements to arrest Dr. Ribe, and numerous people are suing Ribe both criminally and civilly. The A.M.A. also is planning to raid the Los Angeles Coroner's Office. In your case, Ribe is guilty of criminal behavior because he falsely testified in the Alhambra courthouse that Destiny was sexually molested. The investigators are already aware of your innocence. Once Ribe is arrested, if not before, you will certainly be set free.

Enclosed is a copy of Destiny's new autopsy report. Seven scientists and eleven doctors of pathology recently published the report in a medical journal. Enclosed also is some information about other parties that have filed civil complaints against Ribe.

Billy has not written to you because he does not trust the mail, or anyone involved in the criminal justice system. They are watching everything that we do. Billy suggests that you should also not trust anyone, especially any deals offered by outsiders. Christine Maggiore, who has a strong case against Ribe, has been trying to contact you. Ribe testified that Christine's baby Eliza Jane Scoville, died of AIDS, for which Christine failed to have her medically treated, when in reality Eliza Jane died from an allergic reaction to the administration of amoxicillin, an antibiotic. Billy does not trust Christine, and hopes that you will avoid making any deals with Christine, or any of her friends. Please sign the enclosed APA Confidentiality Agreement, so that APA can continue to work on your habeas corpus petition, appeals, civil suits, and other legal matters.

Patricia, could you please sign the enclosed Medical Records Authorization, granting your permission to allow Dr. Amir Al-Bayati, our expert pathologist, to obtain Carissa Nesia's medical records and autopsy materials? He has already studied Carissa's original autopsy and, in his opinion there is "no evidence of child abuse" and "no evidence of head trauma." According to Dr. Al-Bayati, Carissa died of bronchial pneumonia, and she bleeding in her head was caused by administration of epinephrine in the emergency room. Likewise, Dr. Al-Bayati found that Destiny was not physically or sexually abused, and that she died of severe acute hemorrhagic pneumonia triggered by immunodeficiency. Destiny's bleeding was exacerbated by coagulopathic effects of a Vitamin K deficiency.

Sincerely,

Lewis Owen Amack, Esq

North Carolina Laws

NC has three occupant restraint laws. Their basic requirements are as follows.

- All drivers and passengers, regardless of age, must be properly buckled up in vehicles required to have seat belts.
- Children younger than age 8 and who weigh less than 80 pounds must be properly secured in a child restraint or booster seat.
- Children less than age 5 and less than 40 pounds must be in the rear seat if the vehicle has an active passenger-side front air bag and a rear seat.
- When a child reaches age 8 (regardless of weight) or 80 pounds (regardless of age), a correctly fitted seat belt may be used instead of a child restraint or booster seat. Place the shoulder belt under the arm or behind the back. Both if legal and unsafe.
- Booster seats must not be used with just a lap belt, so lap-only seat belts can be used for children over 40 pounds if a lap and shoulder seat belt is available.
- Children less than age 16 are prohibited from riding in the open bed of a pickup truck or other open cargo area.
- Drivers are legally responsible for themselves and all children less than age 18 in the vehicle.
- The penalty for not complying with the Child Restraint/Booster Seat and 2 driver license points is $25 fine and at least $120 court costs.

Recommendations for a child's best protection

1. Use rear-facing child restraints as long as possible, but at least until age two for maximum protection. Children are five times safer riding rear-facing than forward-facing into the second year of life. Most current convertible models can—and should—be used rear-facing until at least 30 pounds.
2. Once a child is turned to face the front of the car, use a child restraint with a harness until the harness is outgrown (from 40–80 pounds, depending on the model).
3. Once a child outgrows the harness, use a belt-positioning booster seat until the child is large enough for the seat belt to fit correctly.
4. Use seat belts for older children only when they are large enough for both the lap and shoulder belts to fit correctly.

For all seats, always check height and weight limits. Whenever possible, keep children younger than age 13 buckled up in a rear seat of the vehicle.

Spicy Oven-Roasted Chickpeas

by Chris Rochelle

Difficulty **Easy** | Total Time **45 mins** | Makes **4 to 6 servings**

Crunchy and spicy are the two things I love most in food. These baked chickpeas are both, plus a tasty and healthy snack. Just toss them with a little olive oil and some spices, then roast in the oven until crunchy. They'll stay crispy for a few days stored in a resealable bag at room temperature.

Click here to see more spicy snacks

Ingredients

2 (15-ounce) cans chickpeas, also known as garbanzo beans, thoroughly drained and rinsed (about 3 cups)

2 tablespoons olive oil

1 teaspoon ground cumin

1 teaspoon chili powder

1/2 teaspoon cayenne pepper

1/2 teaspoon sea salt

Instructions

1. Heat the oven to 400°F and arrange a rack in the middle.

2. Place the chickpeas in a large bowl and toss with the remaining ingredients until evenly coated. Spread the chickpeas in an even layer on a rimmed baking sheet and bake until crisp, about 30 to 40 minutes.

Strategies for Writing Informational Books

- Choose topics I already know well
- Plan categories of information for topic.
- Use an idea/detail chart to organize my information →
- Make a list of important vocabulary words for my topic.
- Create a Table of Contents to organize my informational book.
- Create an introduction for my informational book:
- Get the reader interested by asking a question or stating an interesting fact.
- State one or two big ideas about my topic.
- Include a caption that tells about my illustration.
- Use description to tell about my topic. Include sensory details.
- Include a diagram with labels that shows the parts of something
- Begin a paragraph with a topic sentence and then add details.
- Include important vocabulary words as I write about my topic. Define the words in the same sentence or the next sentence.
- Elaborate by writing add-on sentences that describe, explain, give a reason, or give an example.
- Use a caret or a numbered insert to add information.
- Use sequence to tell about my topic. Include transitional words (first, after, then, next, afterward, finally).

"The Optimist Creed"

by Christian D. Larson

Your Forces and How to Use Them

Promise yourself —

"To be so strong that nothing can disturb your peace of mind

"To talk health, happiness and prosperity to every person you meet.

"To make all your friends feel that there is something worthwhile in them

"To look at the sunny side of everything and make your optimism come true

"To think only of the best, to work only for the best, and to expect only the best.

"To be just as enthusiastic about the success of others as you are about your own

"To forget the mistakes of the past and press on to the greater achievements of the future

"To wear a cheerful countenance at all times and give every living creature you meet a smile

"To give so much time to the improvement of yourself that you have no time to criticize others.

"To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.

"To think well of yourself and to proclaim this fact to the world not in loud words but in great deeds

"To live in the faith that the whole world is on your side so long as you are true to the best that is in you "

Tomorrow will be a fantastic day

Your $19 will allow me to send 48 censuses to beneficiaries across America, who desperately want to be a part of the 10 percent of senior citizens who will have their voice heard on Capitol Hill

I m hoping that each completed census comes back with a $19 donation, otherwise, I'll never be able to raise the money needed to pay for such a wide-reaching campaign

I know you're someone who cares So I'm counting on you to complete your **Ten Percent Census on Social Security** and rush it back to me within the next 4 days

And please include a $19 so I can send a **Ten Percent Census on Social Security** to 48 senior citizens who feel the same way as you

When it comes to such a massive campaign, every day counts If I fall behind, even by just day or two, I'll never be able to meet that 5 8 million goal

I need to collect just over 966,000 censuses each month to meet the goal of 5 8 million

Plain and simple, this is the biggest campaign the National Council of Survivors has ever launched

And I'm hoping that you'll be a part of it

Many [illegible] signal for wireless networking capabilities by default. If your [illegible] has wireless built in, simply enter the WPA2 KEY and SSID values, located on the bottom of the Wireless Gateway, into the appropriate fields as directed by your laptop's setup.

If your computer does not have built in wireless capabilities, you can purchase an 802.11n, 802.11g or 802.11b adapter where you can easily install your 802.11n, 802.11g or 802.11b adapter. You will need to enter the WPA2 KEY and ESSID values located on the bottom of the Wireless Gateway into the appropriate fields as directed by your wireless adapter software.

Note: The WPA2 KEY and ESSID are unique values for each Wireless Gateway. The WPA2 KEY provides wireless security. The ESSID is the name of your wireless network.

You will be able to connect multiple wireless computing devices to the Internet at once.

If you require additional information, please see the user manual.

This is the best technique for dyeing small or delicate items.

(Never use Rit Dye in a plastic or fiberglass sink or tub - it will stain.)

1. Fill sink or basket with enough hot water for fabric to move freely. Remember: Use 1 package of Rit powder or 1/2 bottle of Rit liquid dye and 3 gallons of hot water for each pound of fabric. Pre-dissolve powder in 2 cups of hot water. Add pre-dissolved powder or liquid to dye bath. Stir to mix.
2. Wet fabric in hot water. Unstrumple and add to dye bath.
3. Stir constantly (back and forth, up and down) for 10 to 20 minutes.
4. Rinse in warm water, then gradually cooler water until water runs clear. Wash item in warm water with mild detergent and rinse thoroughly in cool water.
5. Dry item in dryer or air dry.
6. Clean sink or bucket immediately with chlorine bleach or scrub with chlorine-based powder. Liquid, or gel cleanser

I Can Help At Home!

Helping out at home with simple tasks is important to help children build planning skills and teach basic life skills. Spending time teaching them how to put toys away, make their bed, help set/clear the table, etc. is important time spent together. It is also important NOT to spend too much time making sure it is done perfectly...the point is to make the child feel as though they are part of the family and a sense of accomplishment.

Every day choose 1 job you want your child to complete. (They can complete more than one if you choose.) Give a sticker, stamp or simply write a star or happy face for each job completed. Also, please indicate if your child completed their job with parent/sibling help or independently. YOU CHOOSE WHICH JOBS YOU WANT YOUR CHILD TO HELP OUT WITH. Turn this sheet in every **Monday** and look for a new one sent home that same day.

Suggestion: At the beginning of a new sheet, discuss a reward your child can earn at the end of the week if they complete at least 1 job a day for a total of 7.

Fax Connected to Active Telephone Wall Jack	FAIL

An active phone line was not detected

Please check the items below then rerun this test.

Check the phone cord connection between the wall jack and the fax.
The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device
If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack

Plug your phone into the wall jack and check that a dial tone is available.

Check that you are using the phone cord supplied with your HP device.

Refer to your User Guide for more information on the fax test and settings

Instructions on how to rerun this test.

Step 1. Press the "Setup" button
Step 2. Choose the "Tools" menu
Step 3. Choose the "Run Fax Test" item

How to Double Your Internet Speed for Free!

Change your DNS servers for faster internet access

Internet & Network

- Tips & Tricks
- Basics
- Guides & Tutorials
- Installing & Upgrading
- Key Concepts

by **Melanie Pinola**
Updated July 13, 2017

While there are several tweaks and steps you can take to test and improve your internet connection speeds, one of the easiest and quickest ways to speed up your web browsing is modifying the Domain Name System (DNS) servers.

DNS and Your Internet Speed

The DNS is like the internet's phonebook, mapping website names like "About.com" to a specific computer (or computers) where the site is hosted. When you try to access a website, your computer has to look up the addresses, and your choice of DNS server can affect how fast a website loads.

The network settings for your computer, router, and/or access point allow you to specify which DNS servers (primary and secondary) to use. By default, these are likely set by your internet service provider, but there may be faster ones to use.

1.2 Frugal install

Frugal is the typical installation method for Tiny Core. There is a most traditional hard drive installation where all the files are stored on the hard drive. Because all the files of the system are stored all about the disk. With frugal, you basically have the system in two files: vmlinuz and initrd.gz, which location is specified by the boot loader.

Any user files and extensions are stored outside the boot OS.

title. Then after that title and indicate your responsibilities with a title in more appropriate terms (e.g. IT Systems Analyst, instead of Tech III

13. USE ACTION VERBS. Start each sentence with a descriptive action verb — such as directed, organized, established, created, planned, etc. They add power to your sentences. And never use "I" in the resume. Action verbs and short impact sentences gather more attention!

14. BE COMPLETE. No abbreviations or acronyms. Spell out names of schools, cities, business terms, abbreviations, and titles completely, as employers may not recognize exactly what the letters stand for.

15. USE THE CORRECT TENSE. In all your sentences, use past tense words since they imply that you "have done it" before. Employers focus on past results, even if you are still currently performing the duty at your job. Write the resume using the past tense only.

16. SKIP THE GIMMICKS. FedEx arrivals, personal deliveries, sending a resume with flowers, candy or covering a box full of cookies did not impress employers at all.

17. AVOID GRAPHICS. Artistic designs, color inks, clipart, and photos should be avoided. Most electronic resume software cannot read designs, long lines or color ink correctly and often eliminate or change anything they see that is not text.

18. NO TAG LINES. Employers know you'll provide references if they request them; therefore it is not necessary to put "References upon request" at the end of your resume.

19. DON'T ADVERTISE NEGATIVE INFORMATION. The resume is the wrong place to advertise that you were laid off, fired, or had an extended illness. Never state why you left a position; simply list the dates of employment. Never, ever, mention what salary you were paid or seek in your resume.

20. PROOFREAD. Careful read and make your resume flawless. No spelling errors, mistakes or typos, especially in emails. Many HR managers reported they do not hire offenders. Don't trust computer spell checkers since a correctly spelled word like "sea," would go unnoticed by your computer but would be incorrectly read if you meant to say "see."

21. FINAL TEST — ARE EMPLOYERS CALLING? Is your resume getting results? Are employers calling on appropriate jobs you are qualified (not over or under) to perform? If not, start editing and rewriting, and implement the above guidelines.

I had not yet received the message of Edgar Allan Poe's, William Wilson at first reading, but after considering the profound descriptive components of physical structure and the scrupulous personality of Wilson's counterpart, I must now concede that Mr Poe must be trying to convey the asymmetry of a human mind and the presence of an active conscience to the reader. Throughout the text, numerous distinct references were made which call attention to the human mend. Consider the mind when William Wilson describes the school house.

> "The house, I have said, was old and irregular. The grounds were extensive, and a high and solid brick wall, topped with a bed of mortar and broken glass, encompassed the whole. /There was really no end to it's windings - to it's incomprehensible subdivisions. /... From each room to every other there were sure to be found three or four steps either in ascent or descent. /Then the lateral branches were innumerable - inconceivable - ... "(Poe 372-373).

There are several good descriptions of the human mind mentioned here. Old could be describing a store of stored knowledge, with irregular thought processes. Extensive can relate to the capabilities of the mind, instead of the physical make up of a school's grounds. Having no end to windings and

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-888-877-1655 (your boss will never notice ... maybe) or 1-503-200-1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and from wall outlet.
  - Let fax machine remain off for 90 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any home wiring
- If using an All-in-One device temporarily disconnect device from PC

Oven Fried Chicken

Recipe courtesy Paula Deen

Prep Time:	10 min	Level:	Serves
Inactive Prep Time:	-	Easy	4 servings
Cook Time	30 min		

Ingredients

- 2 cups Panko bread crumbs
- 1 cup grated Parmesan
- 4 tablespoons olive oil, divided
- 2 tablespoons freshly minced thyme leaves
- Kosher salt and freshly ground black pepper
- 1/4 cup Dijon mustard
- 2 tablespoons water
- 2 1/2 pounds boneless skinless chicken breasts, pounded to 1/4-inch thickness

GOOD STUFF

Directions

Preheat oven to 400 degrees F. Line a baking sheet with heavy-duty aluminum foil. Place a cooling rack over pan and spray rack with nonstick cooking spray.

In a shallow dish, combine bread crumbs, cheese, 2 tablespoons olive oil, thyme, salt and pepper, to taste. In a separate shallow dish, combine mustard, water, salt and pepper, to taste, and remaining olive oil. Coat each chicken breast with mustard mixture, dredge each in bread crumb mixture. Place on prepared rack in pan. Bake for 25 to 30 minutes, or until chicken is golden brown. Serve immediately.

Boo Hoo Breakfast

Dear Kindergarten Parents,

The Northside PTA cordially invites you to its Annual ***Boo Hoo Breakfast*** in Bicentennial Hall (cafeteria) on Tuesday, September 7th at 9:30am.

After you drop off your little one, or follow the bus to the school, please join us to commiserate (or celebrate) with fellow Kindergarten parents. This is the beginning of a whole new wonderful world for you and your child.

The Kindergarten teachers will be waiting outside to meet your child and once every child is accounted for, they will head to their classrooms. After your little one is in their classroom please head down to the cafeteria and join the other Kindergarten parents. Coffee, juice and assorted baked goods will be served.

On another topic Open House night/book fair will be held on Tuesday September 14th. The schedule will be printed in the August, 2010 **The Learner, Too**. In addition to meeting the teacher and visiting the classroom you will have the opportunity to purchase some books. The money goes directly to supporting your PTA!

I hope to see you there!

Sincerely,

Maria Kasper

Hello

A. Magnetic Forces on Charges

$F_{mag} = qvB \sin(\theta)$ (v x B)

Where theta is the angle between the velocity and the direction of the magnetic field (by Right hand rule — thumb along v, fingers along B)

For positive charge: force is out of palm

Negative charges: force into palm

Magnetic force = 0 if

Charge is 0

B = 0

v is 0

$\sin\theta$ is 0

The magnetic force does no work (because it is perpendicular to the displacement)

Speed doesn't change; only the direction changes

Charge on a plane goes around in a circle with a perpendicular magnetic force.

Net force exists: $F = mv^2/r = |q|vB$

$r = mv/|q|B$

B. Magnetic Forces on Currents

$F_{mag} = -ILBsin\theta$ *where I is current, L is vector T, θ is between L and B*

Right hand rule with thumb and fine with current

Demonstration with horseshoe magnet hooking wire up or down when switched on

Demonstration with radio: mic. from UK. Input, coil of wire attached to cardboard, magnetic fo ce. from radio waves causes wire with current to vibrate, creating sound

C. Magnetic Torques on Coils

Turning motion in electric motors

Coil of wire with current in magnetic field subject to torque, mechanically attached to crankshaft to be turned

Torque = I A B sin θ where A is area

Magnetic Fields from Currents

Field lines curl around wire with running current

Direction (clockwise or counter-clockwise) depends on direction of current in wire

Also, far farther from the wire (decreases at a linear rate)

Right hand rule #2: curl hand around wire and point thumb in current direction (conventional current)

$B = \frac{\mu_0 I}{2\pi r}$

Where $\mu_0 = 4\pi \times 10^{-7} \frac{T \cdot m}{A}$

A loop of wire creates a net magnetic force through the center. Magnitude is determined with the formula: $B = \frac{\mu_0 I}{2r}$

For a solenoid (like with many coils of wire wrapped around, multiply the loop of wire formula by the number of wire turns

NETGEAR Installation Guide

NETGEAR ProSafe 24 Port 10/100 PoE Smart Switch + with 4 Gigabit Uplink Ports FS728TPv2

Start Here

Follow these instructions to set up your smart switch. Before proceeding with the smart switch installation, familiarize yourself with the contents of the *Resource CD*, especially the reference manuals on your *Resource CD*.

First, Verify Package Contents

- NETGEAR FS728TP Smart Switch
- Rubber footpads for tabletop installation
- Power cord
- Rack-mount kit
- *Installation Guide*
- *Smart Switch Resource CD* that includes the NETGEAR Device Manager Utility (Smart Control Center) and *FS728TP Series Hardware Installation Guide*. (A link to the online *FS728TP Software Administration User's Manual* is on the *Resource CD*.)
- Warranty/Support Information Card.

Then, Prepare to Install Your Smart Switch

Prepare a PC with an Ethernet adapter and a CD-ROM drive.

Subject: Additional information

Hi,
My name is Kay Weidner and I am a granddaughter of Pallie Mae Boler and Joseph Oscar Swindle from the Wesley Boler family (#21) I am really impressed to have located your fascinating information about the Boler family on your web site I have been living in Mexico City for many years, so it was especially surprised to have read about so many stories I had heard when I was a child from my grandparents.
I knew all their siblings, and can add a few observations. John M. Boler's wife(my great grandmother) was Victoria Francis, and was known as Victoria, her mother was known as Hester (Germany).
99 Eunice Boler was married to Will Hamilton (I have no dates for him)
#101 Listed as Maud, spelled her name Maude She was married to Festus Swindle, a brother of my grandfather, Oscar
#102 Uncle Mark was John Mark, and was often called J Mark.
#103 Pallie Mae was my grandmother's name
#104 John Austin was known as J Austin and was married to Velma Chrisne (Her sister Leola -- spelling?-- lived in Bangs, Texas but I don't know if they were from there or elsewhere.)
#105 Uncle Bertice Boler's wife, Bertie was also a Swindle, J Oscar's sister
#108 Pearl's husband's name was Kenton, although he was known as Kent.

The entrance pictured at the Indian Gap Cemetery was dedicated on April 29 1959. The archway was erected by the Boler family, and the plaque was donated by the Hamilton Marble Works of Hamilton, Texas

I hope this additional information will be of value to you. If I can be of further assistance, don't hesitate to contact me

Congratulations again on your fine investigative research.

Yours truly, Kay Weidner

1.2 Frugal install

Frugal is the typical installation method for Tiny Core. There is a most traditional hard drive installation where all the files are stored on the hard drive. Because all the files of the system are stored all about the disk. With frugal, you basically have the system in two files: vmlinuz and initrd.gz, which location is specified by the boot loader.

Any user files and extensions are stored outside the boot OS.

Form W-4 (2008)

Purpose. Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. Consider completing a new Form W-4 each year and when your personal or financial situation changes.

Exemption from withholding. If you are exempt, complete only lines 1, 2, 3, 4, and 7 and sign the form to validate it. Your exemption for 2008 expires February 18, 2009. See Pub. 505, Tax Withholding and Estimated Tax.

Note. You cannot claim exemption from withholding if your income exceeds $900 and includes more than $300 of unearned income (for example, interest and dividends) and (b) another person can claim you as a dependent on their tax return.

Basic instructions. If you are not exempt, complete the **Personal Allowances Worksheet** below. The worksheets on page 2 adjust your withholding allowances based on itemized deductions, certain credits, adjustments to income, or two-earner/multiple job situations. Complete all worksheets that apply. However, you may claim fewer (or zero) allowances.

Head of household. Generally, you may claim head of household filing status on your tax return only if you are unmarried and pay more than 50% of the costs of keeping up a home for yourself and your dependent(s) or other qualifying individuals. See Pub. 501, Exemptions, Standard Deduction, and Filing Information, for information.

Tax credits. You can take projected tax credits into account in figuring your allowable number of withholding allowances. Credits for child or dependent care expenses and the child tax credit may be claimed using the **Personal Allowances Worksheet** below. See Pub. 919, How Do I Adjust My Tax Withholding, for information on converting your other credits into withholding allowances.

Nonwage income. If you have a large amount of nonwage income, such as interest or dividends, consider making estimated tax payments using Form 1040-ES, Estimated Tax for Individuals. Otherwise, you may owe additional tax. If you have pension or annuity income, see Pub. 919 to find out if you should adjust your withholding on Form W-4 or W-4P.

Two earners or multiple jobs. If you have a working spouse or more than one job, figure the total number of allowances you are entitled to claim on all jobs using worksheets from only one Form W-4. Your withholding usually will be most accurate when all allowances are claimed on the Form W-4 for the highest paying job and zero allowances are claimed on the others. See Pub. 919 for details.

Nonresident alien. If you are a nonresident alien, see the instructions for Form 8233 before completing this Form W-4.

Check your withholding. After your Form W-4 takes effect, use Pub. 919 to see how the dollar amount you are having withheld compares to your projected total tax for 2008. See Pub. 919, especially if your earnings exceed $130,000 (Single) or $180,000 (Married).

Personal Allowances Worksheet (Keep for your records.)

A Enter "1" for **yourself** if no one else can claim you as a dependent . . . . . A ___

B Enter "1" if:
- You are single and have only one job; or
- You are married have only one job, and your spouse does not work; or
- Your wages from a second job or your spouse's wages (or the total of both) are $1,500 or less.

B ___

C Enter "1" for **your spouse.** But, you may choose to enter "-0-" if you are married and have either a working spouse or more than one job. (Entering "-0-" may help you avoid having too little tax withheld.) . . . . . C ___

D Enter number of **dependents** (other than your spouse or yourself) you will claim on your tax return . . . . . D ___

E Enter "1" if you will file as **head of household** on your tax return (see conditions under **Head of household** above) . . . . . E ___

F Enter "1" if you have at least $1,500 of child or dependent care expenses for which you plan to claim a credit . . . . . F ___

Ingredients **SERVES 30**

- 3/4 cup butter, softened
- 1 cup white sugar
- 2 eggs
- 1/2 teaspoon vanilla extract
- 2-1/2 cups all-purpose flour
- 1 teaspoon baking powder
- 1/2 teaspoon salt

Directions

- In a large bowl, cream together butter and sugar until smooth. Beat in eggs and vanilla. Stir in the flour, baking powder, and salt. Cover, and chill dough for at least one hour (or overnight).
- Preheat oven to 400 degrees F (200 degrees C). Roll out dough on floured surface 1/4 to 1/2 inch thick. Cut into shapes with any cookie cutter. Place cookies 1 inch apart on ungreased cookie sheets.
- Bake 6 to 8 minutes in preheated oven. Cool completely.

FROSTING

4 cups powdered sugar
½ cup shortening
5 tablespoons milk
1 teaspoon vanilla extract
Food coloring

In a large bowl, cream together the powdered sugar and shortening until smooth. Gradually mix in the milk and vanilla with an electric mixer until smooth and stiff, about 5 minutes. Color with food coloring if desired.

Congratulations on taking the first step toward addressing your hearing loss!

Dear Richard,

Thank you for your recent visit to assess* your hearing loss --- a condition that affects approximately 48 million Americans.[1] Evidence continues to mount that untreated hearing loss is linked to many conditions that could affect your well-being, including Alzheimer's, dementia, an increased risk of falling and more.[2] Without treatment, hearing loss will continue to deteriorate over time.[3]

For a limited time, we are offering you a **special discount of up to $1000 off** a pair of Ultimate hearing aids

These are the **most advanced hearing devices** on the market today with innovative features, including connecting to the internet, enabling you to listen to multiple speakers and the convenience of a new rechargeable unit. Their minuscule size, coupled with slight discreet color options, makes it almost invisible

Call (844) 713-7627 to make an appointment. **Offer expires February 28, 2018.**

Sincerely,

Chenoa James, Hearing Instrument Specialist

Troubleshooting Steps

The steps below will help you resolve common faxing problems.

- Switch off fax machine and unplug power adapter from device and wall outlet. Let fax machine remain off for 60 seconds.
- Try a different phone cord between the fax machine and the Vonage device.
- Eliminate any splitters between the fax machine and the Vonage device.
- Connect Fax machine directly to the Vonage device, bypassing any other wiring.
- If using an ATA One device, temporarily disconnect device from PC.

Nutritional Protocols for Musculoskeletal Problems (1 CEU)
Presenter: Dr. Steve Zoltoy

This presentation focuses on how to improve the outcome of everyday chiropractic cases by implementing nutrition into the treatment plan. Common conditions that will be covered are inflammation, ligament laxity, muscle fatigue and headaches. The inclusion of 1 or 2 key nutrients can reduce the healing time of patients with the above condition and improve their overall treatment outcome.

Hello World!

Die Wegwarte oder Zichorie,

Cichórium intybus

Die Jungfrau, die sehnsuchtsvoll am Wegrande Ausschau nach dem verschollenen Geliebten hält, hat die mittelalterliche Gottheit in eine Feldblume verwandelt — so weiß die Volkssage über die Entstehung der „Wegwarte" zu berichten. Wir begegnen der ausdauernden Pflanze außer an Wegrändern und Feldrainen auch auf kalkigen Äckern. Mit ihrer rübenförmigen Pfahlwurzel vermag sie tief in den Erdboden einzudringen. Der aufrechte, bis über 1 m hohe Stengel trägt sparrig abstehende Äste. Während die großen, schrotsägeförmig gezähnten Grundblätter gestielt sind, finden wir am Sproß selber nur sitzende Blätter, die mit ihrer verbreiterten Basis den Stengel mehr oder weniger umfassen und nach oben zu schnell an Größe abnehmen.

Den Juli an schmückt sich die Pflanze mit prächtig himmelblauen Blütenköpfchen, die zwar nur von kurzer Lebensdauer sind, dafür aber in großer Zahl hervorgebracht werden. Sie stehen einzeln oder auch zu mehreren in den Blattachseln. Von den dreißig ganz imperialen Hüllkelchblättern, die den Blütenstand umschließen, sind die äußeren kurz und nach außen abgebogen, die inneren dagegen lange und senkrecht gestellt.

Die beim Löwenzahne (I, 65) entfällt jedes Korbchen nur zungenförmige Zwitterblüten. Der unterständige Fruchtknoten trägt die von einem zackigen Kelchsaume umgebene kurze Blumenkronröhre, die in eine lange bandförmige Zunge ausläuft. Die 5 Staubbeutel sind zu einer Röhre verwachsen, die von den freien Staubfäden getragen wird. Der von unten her in die Staubbeutelröhre eindringende Griffel ist mit „Fegehaaren" ausgestattet. Der portionsweise aus dem oberen Ende der Staubbeutelröhre hervorgepreßte Pollen wird leicht von der Bauchseite der honigsuchenden Insekten abgestreift. Erst nachdem der sich rasch streckende Griffel weit über die Staubbeutelröhre hinausgewachsen ist, öffnen sich die bis dahin fest aneinandergepreßten Narbenäste. Später rollen sie sich so weit ein, daß sie mit den eigenen Pollenkörnern die noch an den Fegehaaren haften, in Berührung kommen können (Selbstbestäubung). Die Blütenköpfe öffnen sich morgens und schließen sich schon am frühen Nachmittage.

Die Wurzel liefert als Kaffeeersatz bekannte „Zichorie", zu deren Gewinnung sie in Stücke geschnitten, getrocknet und dann gemahlen wird. Allerdings verwendet man hierzu nicht die Wurzel der wilden Pflanze, sondern angebaute Kulturformen.

RTP Payload for Redundant Audio Data

Status of this Memo

This document specifies an Internet standards track protocol for the Internet community, and requests discussion and suggestions for improvements. Please refer to the current edition of the "Internet Official Protocol Standards" (STD 1) for the standardization state and status of this protocol. Distribution of this memo is unlimited.

Abstract

This document describes a payload format for use with the real-time transport protocol (RTP), version 2, for encoding redundant audio data. The primary motivation for the scheme described herein is the envelopment of audio conferencing tools for use with lossy packet networks, such as the Internet MBone. Although this scheme is not limited to such applications

1. Introduction

Audio-based conferencing is becoming widely used on the Internet MBone community, even though it is perceived the quality to be sufficiently poor for most applications. We have identified a number of problems which impair the quality of conferences, the most significant of which is packet loss. Since as a packet-switched network is particularly given the increasing popularity, and therefore increasing load, of the Internet. The description of speech travelling jittery even at low loss rates which is currently experienced may improve as a whole generation of users that multimedia conferencing uses the Internet is not viable. The addition of redundancy to the data stream is offered as a solution [1]. If a packet is lost from the stream redundant information may be reconstructed at the receiver from the redundant data that arrives in the following packets. Provided that the average inter-

latter handles logistics like matching buyers and sellers and takes a 10% cut of traders' profits.) Market theorists say the use of real money is an incentive for experts to participate, which sharpens the site's forecasts.

Real stakes require rules, which were approved by the U.S. Commodity Futures Trading Commission. Most notably, the amount of money users can wager on each prediction is capped at $850, a limit designed to discourage market manipulation. It also sets PredictIt apart from Ireland-based Intrade, which reported $290 million in bets on the 2012 presidential election before it ran afoul of U.S. regulators.

Still, insider trading could prove to be an issue. Although PredictIt bars its own employees from betting, "there's really nothing we can do" if campaign pros, congressional staffers or pollsters choose to capitalize on valuable information, says Aaron Travis, an Aristotle executive.

Take the betting market on the next majority leader of the House of Representatives. When influential Wisconsin Representative Paul Ryan endorsed Representative Tom Price for the post, the Georgian's odds quickly spiked from 15% to 83% before plummeting in the days to follow. Anyone with advance knowledge could have profited. And while there have been no allegations of improper trading, the prospect of an uneven playing field may deter some players in the wake of the fantasy-sports scandal. There's always a "risk that a bunch of people figure they're not one of the insiders, so they take their ball and go home," says Barry Ritholtz, a New York investor and critic of prediction markets.

That hasn't stopped the site from becoming a touchstone for presidential-campaign staffers. Travis says a member of Jeb Bush's campaign told her it tries to assuage doubts among nervous donors by pointing to Bush's odds on the site, where he ranks as the second likeliest GOP nominee, behind Marco Rubio.

For savvy traders like Miller, whose predictions incorporate quantitative modeling, one of the keys to success is separating head from heart. He's happy to make a few bucks off Biden's indecision. But he's voting for Hillary Clinton in the end. ■

BROKEDOWN PALACE

Fare you well, my honey, fare you well my only true one,
All the birds that were singing are flown, except you alone.

I'm Going to leave this brokedown palace,
On my hands and my knees, I will roll, roll, roll.
Make myself a bed by the waterside,
In my time,in my time, I will roll, roll, roll.

In a bed, in a bed, by the waterside I will lay my head.
Listen to the river sing sweet songs, to rock my soul.

River going to take me, sing sweet and sleepy,
Sing me sweet and sleepy all the way back home.
It's a far gone lullaby, sung many years ago.
Mama, mama many worlds I've come since I first left home.

Goin' home, goin' home, by the waterside I will rest my bones,
Listen to the river sing sweet songs, to rock my soul.

Going to plant a weeping willow,
At the bank's green edge it will grow, grow, grow.
Sing a lullaby beside the water,
Lovers come and go, the river roll, roll, roll.

Fare you well, fare you well, I love you more than words can tell,
Listen to the river sing sweet songs, to rock my soul.

"Our teams love playing on this surface."
Jay Messenger, Head Football Coach/Athletic Director,
Valley View High School, Germantown, Ohio

"We had 3,700 people for our sport horse, and I saw the field. "We couldn't be happier with it. It has been a great investment for the school district. Maintenance costs have been reduced, and we are enjoying an unbelievable amount of use."
Jack Mills, Athletic Director, Kings High School, Kings Mills, Ohio

"We have been able to use this field at least twice as much as our other field. It's versatile. There's little maintenance which is great for us," said Jim Lee, Athletic Director, Northeastern Middle/High School, Thurmont, Ohio.

"The field has been super. It continues to play as "advertised" all the time. It's a good value. We certainly got our money's worth."
Dave Dolinich, Athletic Director, Elder High School, Cincinnati, Ohio

"The field is a great addition and the community is enjoying many benefits from installing a multi-functional field that can be played on all day and every day."
Dave Hovis, Superintendent, Lebanon City Schools, Lebanon, Ohio

"A great investment for our schools". "Our athletic and our community have used it extensively. Results are beyond our expectations." "Monthly drop-out rates, which they save this fund." "So many advantages." "We certainly got our money's worth."!

Welcome to the 5th Annual **Teens for Jeans**

drive the campaign that empowers **YOU** to take action and make a difference!

Li'l Hungry Hearts is teaming up with **Aéropostale's Teens for Jeans** for their 3rd year to take action on **Youth Homelessness**

Please send in your Clean Gently worn jeans (ALL sizes and brands of jeans) to your child's class between **NOW and February 10th** and we'll make sure they get donated to **Aéropostale** to benefit youths in over 600 homeless shelters or charities across the United States and Canada

If you have a larger amount than your child can handle please bring them into the front office

Spread the Word ~ let families, friends, neighbors and workplaces know about our collection efforts!

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855 330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fax web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

4 Other payments. You must generally correct the box you have to sign the certification when you have been notified that you have previously given an incorrect TIN. Other payments include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical or health care services (including payments made through a credit card or third party network), payments to a nonemployee for services, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5 Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give the correct TIN, but you do not have to sign the certification.

What Name and Number To Give the Requester

For this type of account:	Give the name and SSN of:
1 Individual	The individual
2 Two or more individuals (joint account) other than an account maintained by an FFI	The actual owner of the account or, if combined funds, the first individual on the account[1]
3 Custodian account of a minor (Uniform Gifts to Minors Act)	The minor[2]
4 a The usual revocable savings trust (grantor is also trustee)	The grantor-trustee[1]
b So-called trust account that is not a legal or valid trust under state law	The actual owner[1]
5 Sole proprietorship or single-owner LLC	The owner[3]
6 Sole proprietorship or single-owner LLC	The owner[3]
For this type of account:	**Give name and EIN of:**
7 Disregarded entity not owned by an individual	The owner
8 A valid trust, estate, or pension trust	Legal entity[4]
9 Corporation or LLC electing corporate status on Form 8832 or Form 2553	The corporation

[1] List first and circle the name of the person whose number you furnish. If only one person on a joint account has an SSN, that person's number must be furnished.

[2] Circle the minor's name and furnish the minor's SSN.

[3] You must show your individual name and you may also enter your business or DBA name on the "Business name/disregarded entity" name line. You may use either your SSN or EIN (if you have one), but the IRS encourages you to use your SSN.

[4] List first and circle the name of the trust, estate, or pension trust. (Do not furnish the TIN of the personal representative or trustee unless the legal entity itself is not designated in the account title.) Also see Special rules for partnerships, earlier.

Note. If no name is circled when more than one name is listed, the number will be considered to be that of the first name listed.

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, to commit a fraud or other crime. An example of identity theft is someone using your SSN to obtain a job or filing a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Publication 4535, Identity Theft Prevention and Victim Assistance.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help for a tax problem that has not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of emails and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detail sent by email or through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at spam@uce.gov or contact them at www.ftc.gov/idtheft or 1-877-IDTHEFT (1-877-438-4338).

Visit IRS.gov to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form to use the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.

America's Understanding of Emancipation Proclamation On Its 150th Anniversary Too Simple For Country's Own Good

Posted: 01/01/2013 4:06 pm EST | Updated: 01/02/2013 12:42 pm EST

Abraham Lincoln, the tall president with the stovepipe hat, the full beard and the grief-stricken eyes, slipped away from the White House's annual New Year's celebration with a few members of his aide staff late Tuesday afternoon. Lincoln sailed his nerves then his hands.

After a few minutes, he took a pen, signed the Emancipation Proclamation and ushered in the beginning of the end of two and a half centuries of American chattel slavery some of its attendant vestiges and human degradation. Exactly 150 years ago today, the Emancipation Proclamation – a foundational document written on both sides of an old navy sheet of White House paper – declared slaves living in most of the South "forever free."

For many American adults, it's also the moment when universal, legal freedom became a reality to an estimated 4 million black slaves. But planners who have studied the document, Lincoln and Civil War history say the limited understanding of how slaves became free citizens led to a national habit of thinking about complex issues like race and equality simply like finite challenges already wrestled with and resolved.

"Of all the country's foundational and key documents the Emancipation Proclamation may well be the most misunderstood," said Eric Foner, a Columbia University historian and a leading Reconstruction, race and Lincoln scholars.

On the one hand, there are a healthy share of Americans who believe that Lincoln freed all the slaves with a stroke of his pen," said Foner, who this year published "The Fiery Trial: Abraham Lincoln and American Slavery."

"On the other, there is this cynical modern take that says Lincoln wasn't interested in emancipation, that he took action for purely political reasons, for military reasons and the notion that not many slaves were actually freed. None of that is exactly true."

Lincoln was not the lone force behind emancipation but rather an essential part of a coalition of outspoken abolitionists that included free blacks and whites, said Lonnie G. Bunch III, director of the Smithsonian's National Museum of African American History and Culture and one of the curators of the Smithsonian's 1998 Emancipation Proclamation anniversary exhibit.

Lincoln also was responding to the people pressure slaves brought to bear, said Bunch.

From the very start of the war in South Carolina, slaves began running away more frequently and willingly, living in a state of legal limbo. What started with four slaves in Virginia seven miles in a Union-controlled fort, became hundreds and later thousands of slaves in areas just north of the Mason-Dixon line. In order to evade slave catchers, county-by-county, the figures paid to find and return fugitive slaves to their masters, emancipated by "decree" law, some set up so-called "contraband" camps near Union Army encampments or outposts, said Bunch. One such camp grew in what is now Arlington Cemetery just outside Washington, D.C.

Some runaways also began to work for wages. They dug trenches and latrines, managed laundry and other tasks related to war. Later when the Union Army began accepting black soldiers, some negotiated with commanding officers to bring their families along.

That idea, towards self-liberation was first documented about 30 years ago, said Bunch, but most people have no knowledge of how slaves helped bring down the institution.

"I don't say the to take anything away from Lincoln, said Bunch, author of the 2010 book Call the Lost Dream Back: Essays on History, Race and Museums. "Ultimately the Emancipation Proclamation, the 13th Amendment, even if I would have happened without

FOR IMMEDIATE RELEASE

Teach Our Children Invites Mayor DeStefano to an Open Forum

New Haven Parents Students and Community Members will be in attendance

Contact: Camelle Scott Director of Teach Our Children, 203-786-5499

New Haven, CT , Teach Our Children and Youth Unleashed are inviting Mayor John DeStefano to an open forum to be hosted at the Center Church an the Green s Parish Hall (311 Temple St.) on tue tapic of the New Haven Public Schools budget The meeting will take place on April 30th, 2011 at 12 00 p m

New Haven Public Schools spends approximately thirty dollars per student on textbooks. This amount is not even enough to provide each student with half a textbook each year Too many NHPS classrooms don t have enough books to go around and many are left nsing outdated materials "My Algebra II book is physically damaged there are pages missing, qunstions scratched out and noticeable water damage " explained Terrell Roman Hillhouse High Semor "I am sad to say my book is in better condition than any textbook that has been assigned to me dnring my four years "

Our school district only has 29 nurses to over 53 schools Many TOC parents are concerned about the lack af a full time nurse at many schools Joseph Video, a Clemente Leadership Academy parent states "to not have a nnrse there puts our kids m danger Students have a variety af medical needs, like asthma or peanut allergies The nurse is the first line of defense Roberto Clemente Leadership Academy has a nnrse that is shared with at least one other school

As critical stakeholders in our school district, New Haven Parents, students, and community members want to see real changes to the way distnct funding s prioritized with increased investment in classroom rusources and essential teaching and nursing staff Our public meeting is an opportunity for parents, students, and the wider commnnity to engage in a frank oonversation ahont our school distncts budget priorities.

In Ianuary of 2011 Mayor DeStefano said, "seeing that all our kids are academically ready to graduate from college is one of the three major goals of the school reform initiative and that, "whatever else we do as a city there is nothing more important than accomplishing these three things in the lives of our children." If we are going to prepare NHPS students to graduate from college we nnst properly invest in our schools The future af our oommnnity is at stake

###

Teach Our Children (TOC) is a grassroots organization af New Haven parents with several hundred members to improve public schools Teach Our Ch ldren s mission is to ensure that we as parents are truly involved with education policy and decision-making and r ghtfully acknowledged as critical participants in the success of New Haven s school system TOC was founded in January 2006

Features and Benefits

Fast

- **Get performance** — world's fastest all-in-one[1] with ISO print speeds of 15 ISO ppm (black) and 5.4 ISO ppm (color)[2]
- **High-speed faxing** — as fast as 3 sec per page; speed dial storage up to 60 numbers, fax memory up to 160 pages
- **Instant-dry inks** — smudge, fade and water resistant prints; documents rival those from a laser printer

Reliable

- **Built-in Wi-Fi** — Wi-Fi CERTIFIED™ n support offers greater range and connectivity to print from virtually any room in the house or office[3]
- **Print twice as much** — get about 2x more prints with two Black cartridges[4]
- **Product protection you can count on** — one-year limited warranty; phone support, without charge, for the life of the product[4]

Hassle-free

- **Easy wireless printing** — connect to your wireless network in seconds with Easy Epson Wi-Fi[3]
- **Save energy** — uses up to 70% less power than laser printers[5]
- **Save paper** — save up to 50% of your paper supply with manual, two-sided printing[3]

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1 855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Jay — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Delicious Blackberry Ice Cream

Added [illegible] on April 1, 2026 by [illegible]

Prep Time: 21 minutes | Servings: 12 | Difficulty: Intermediate
Cook Time: 30 minutes

Ingredients

- 2 cups Fresh Blackberries
- 2 Whole Juiced Lemon
- 2 tbsps Sugar
- ½ cup Half-and-half
- 1 cup Sugar
- 5 Large Egg Yolks
- 1½ cups Heavy Cream

Preparation Instructions

Add the blackberries, sugar, and lemon juice to a medium saucepan. Cook over low heat, stirring occasionally, for 20 to 25 minutes. Strain using a fine mesh strainer, pressing the berries to extract as much juice from them as possible. Set aside.

Heat the half-and-half and 1 cup of sugar in a separate saucepan over medium heat. Turn off heat when mixture is steamy but not boiling.

Beat egg yolks in a bowl and slowly whisk in the hot milk mixture, a ladle at a time, to temper the eggs so they don't curdle. Return the mixture to the pan and cook, stirring constantly, over low heat until it thickens enough to coat the back of a spoon. Cook over medium-low heat, stirring constantly, until the mixture reaches 170°F (77°C).

Add the cream to a separate bowl. Drain the strained blackberry juice into the bowl with the heavy cream. Stir to combine. Add the blackberry juice mixture to the cream, and mix until smooth.

Chill in an ice cream maker according to the manufacturer's instructions. Freeze until thick. Place in a freezer-safe container and freeze for at least 4 hours before serving.

Optional: Stir in semi-sweet chocolate chunks before freezing. Delicious!

HOLE IN ONE FULFILLMENT RESPONSIBILITY AFFIDAVIT

Forward this document to your hole in one contest administrator

NOTE: Do not return this document to American Hole 'n One. It is for the benefit of the sponsor(s) and tournament director only

Dear Tournament Director:

We are pleased to provide hole-in-one prize fulfillment for your golf tournament. The following stipulations and execution requirements apply in order for there to be valid prize fulfillment under the terms and conditions of the hole in one prize fulfillment contract provided by American Hole 'n One (AHNO).

These execution requirements are provided only as reminders are not all inclusive and do not exceed or replace the terms and conditions of the contract between AHNO and the client.

Important execution requirements per the terms & use (Please Include, but are not limited to:

1 YARDAGE: Signage provided for you by our division by AHNO states his prize and is to play a hole number and maximum yardage. The main prize hole(s) must play from the minimum yardage as per the contract and printed on the prize sign(s) regardless of tee box locations. IMPORTANT: It may be required to move the tee boxes for the correct yardage as required by the contract prior to the start of the tournament. (There is no maximum yardage requirement on bonus prize holes.)

2 WOMEN GOLFERS: On main prize hole(s), women may play from a maximum of 15 yards closer than men to a minimum distance of 135 yards, regardless of tee box locations. IMPORTANT: Women's tee boxes may be required to be moved to the correct distance prior to the start of the tournament. (On bonus prize hole(s), women may play from the ladies tees.)

3 HOLE #: The signs provided by AHNO must be displayed in the correct hole number as stated on the contract. Tournament officials are responsible for confirming the prizes are displayed on the correct hole numbers. There is no valid prize fulfillment for a main prize placed/displayed on an incorrect hole number.

4 WITNESS REQUIREMENTS: Two non-playing witnesses (aged 18 or older) are required on each main prize hole. One witness must be positioned on the tee and one on the green in a location that allows the witness to clearly see the ripe and fall of the golf ball and the ball go into the hole. All eligible hole in one shot attempts must be in the presence of the witnesses to be eligible for prize fulfillment. The two witnesses must be able to verify that every golfer shooting from the minimum distance required per the contract. (Bonus prize holes do not require witnesses.)

5 NO MULLIGANS: No mulligans or practice shots are allowed at any time on a main prize hole. Each golfer may have a maximum of one attempt regardless of the outcome of the shot. A golfer who is rounding out a foursome by taking an extra shot for the team is only eligible on his or her first shot. (Mulligans may be taken on bonus prize holes, but prizes are only awarded for their first shot.)

6 AMATEUR GOLFERS ONLY: Hole in one prize fulfillment is valid for amateur golfers only (according to USGA guidelines), unless declared prior to tournament and stated on contract issued by AHNO.

7 NUMBER OF GOLFERS: AHNO must be notified prior to the tournament if the number of golfers varies by more than 5% from the number of players listed on the contract. (A maximum of 5% variance is permitted without contacting AHNO.)

8 TOURNAMENT PLAY ONLY: Prizes and signs are for tournament-event play only. Signs should be placed at the holes immediately prior to the event and should be removed after the final player has played a par 3 hole. No fulfillment will be considered for players who are not part of the non-practice tournament or event.

9 EVENT CANCELLATION: If the event is cancelled or rescheduled you must contact AHNO as soon as possible and no later than the first business day following the originally scheduled event date.

10. PRIZE FULFILLMENT FOR A HOLE 'N ONE: Any eligible golfer successfully makes a hole in one on any prize hole. Immediate telephone notification must be made to the AHNO claims department (800-222-2837) no later than the first business day following the event. A signed affidavit and/or polygraph test by a professional polygraphist may be required from witnessed and/or tournament administrators to verify the facts of the claim.

Failure to meet any of the above requirements will invalidate your Hole in One prize contract, and without such contract AHNO is under no obligation to provide the hole in one prize.

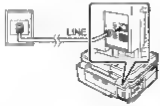
6 Connect the phone cord

To fax, connect the included phone cord to a telephone wall jack and to the **LINE** port on your product. To connect a telephone or answering machine, see the Quick Guide



Note: If you're connecting to a DSL phone line, you must use a DSL filter or you won't be able to fax. Contact your DSL provider for the necessary filter

7 Choose your connection

You can connect your printer to your existing network (wireless or wired) or directly to your computer using a USB cable (not included). See below for details on each connection method

Wireless Connection

You must install the software on every computer from which you want to print. For the first installation, we recommend using a USB cable (not included) to simplify wireless setup. After the printer is connected to the network, you will be prompted to remove the cable

If you're using Mac OS® X 10.6 or don't have a USB cable, you will need to use the buttons on the printer to select wireless settings.

Make sure you know your network name (SSID) and network password

- Network name _____
- Network password _____

If you don't have this information, contact the person who set up your network

Direct USB Connection

Make sure you have a USB cable (not included). Do not connect the printer to your computer until you're instructed to do so.

Wired Ethernet Connection

Make sure you have an Ethernet network cable (not included). You must install the software on every computer from which you want to print

8 Install software

1 Make sure the printer is **NOT CONNECTED** to your computer.

Windows: If you see a Found New Hardware screen, click **Cancel** and disconnect the USB cable. You can't install your software that way.

2 Insert your product CD

Windows: If you see the AutoPlay window, click **Run Setup.exe**. If you see the User Account Control screen, click **Yes** or **Continue**.

3 **Macintosh:** Double-click the **Epson** icon.

4 Click **Install** and follow the on-screen instructions.

Any questions?

House of Cards Against Humanity.

You see on your screen proof that Cards Against Humanity has finally sold out: a set of cards promoting the new season of *House of Cards*, which premieres on Netflix on February 14.

House of Cards tells the story of Frank Underwood, a congressman with morals as flexible as his southern accent, and Zoe Barnes, an awkward teenager trapped in the body of her mother for just one day (*note to self*: check this before posting online). To research this pack, we talked with the head writer of *House of Cards* and watched almost all of the first season. Like many of you, we can't wait to see what all of our favorite characters, like Remy Danton and Peter Russo, do in season two!

25 shitty jokes about *House of Cards*.
An origami swan that's some kind of symbol?
A homoerotic subplot.
Forcing a handjob on a dying man.
Ribs so good they transcend race and class.
The sensitive European photographer who's fucking my wife.
Carbon monoxide poisoning.
Discharging a firearm in a residential area.

A One-Day Seminar

CRITICISM & DISCIPLINE

Skills for Managers and Supervisors

Learn proven ways to bring about positive change in people – without incurring resentment or destroying relationships.

Do you have employees who

- Don't meet deadlines?
- Cause conflict?
- Make excuses?
- Refuse to learn new skills?
- Don't respect you?
- Drain your time and energy?
- Have a bad attitude?
- Are chronically tardy?
- Get derailed by personal problems?
- Miss work often?
- Challenge your authority?

If you answered "yes" to more than 3 of these questions, you have some classic problem employees on your hands. Attend this seminar and learn how to get them on track – or out of your hair.

Is your team carrying dead weight?

These days you just can't afford employees who drag down morale, destroy productivity, and distract you from important projects.

At this seminar, you'll learn how to ...

- Approach an employee about the problem behavior in a way that minimizes hostility and defensiveness
- Create an improvement plan and get your employee to commit to it
- Coach the employee so there's no chance of misunderstanding
- Document the process to encourage steady progress
- Discipline, reassign, or dismiss the person if the problem doesn't improve — and handle it all fairly

Don't wait to enroll! With the skills you will gain at the seminar, you'll get your problem employees to pull their own weight. You'll eliminate the weak links – and reveal a fully-functioning team. Thanks to your coaching, your employees will become more productive, satisfied, and noticeably easier to work with.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server, or one of a modem, connect your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for

interestingness.

You can fax something interesting to 1-888-5[illegible]-1668 (your boss will never notice ... maybe) or 1-503-200-1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Get an e-mail alert when FaxToy receives a new fax.

This is a test fax. I am trying to detect and diagnose problems with my computer and the Winviews Fax and Scan application. If I see my fax on the Faxbox website, then I know I can send faxes at least. I need to now receive a fax from Fiuzero or some other online Fax service. Thank you!

Writing the Summary

When writing the summary there are three main requirements.

1. The summary should cover the original as a whole.
2. The material should be presented in a neutral fashion
3. The summary should be a condensed version of the material presented in your own words

* * Also do not include anything that does not appear in the original. (Do not include your own comments or evaluation)
and
Be sure to identify your source

For example

In his paper "Global Implications of Patent Law Variation," Koji Suzuki (1991) states that lack of consistency in the world's patent laws is a serious problem. In most of the world patent ownership is given to the inventor that is first to file for a patent However the United States maintains a first to invent policy In view of this patent ownership can change depending on the country Multiple patent ownership can result in economic problems however most striking is the international tension it causes The fact that the United States does not recognize patent ownership in other countries, in violation of the Paris Convention on Industrial Properties, has prompted the World Intellectual Properties Organization (WIPO) to push the United States to review its existing patent law principles.

Test M2o

Can send but not receive faxes

These are possible causes and solutions. Try one or more of the following:

Load paper

Load paper to print any faxes that have been stored in the printer.

Make sure that Auto Answer is on

If the Auto Answer light is on:

- The printer will answer after the preset buttons or rings/intervals.
- If you are using a distinctive ring, see the instructions for setting a distinctive ring for the printer.

1 From the printer control panel, press .

2 Press the arrow buttons until **Fax Setup** appears, and then press OK.

3 Press the arrow buttons until **Ringing and Answering** appears, and then press OK.

4 Press again.

Check to see if Auto Answer is set to On.

5 If Auto Answer is not selected, use the arrow buttons until On appears, and then press OK to save the setting.

Check ink

Check the ink levels, and install a new cartridge if necessary.

Check whether Fax Forwarding is selected

1 Press the group control panel, press .

2 Press the arrow buttons until **Fax Setup** appears, and then press OK.

3 Press the arrow buttons until **Ringing and Answering** appears, and then press OK.

4 Press the arrow buttons until **Fax Forward** appears, and then press OK.

Check to see if Fax Forward is set to **Forward** or **Print and Forward**.

5 If the forward is set to On, press the arrow buttons until Off appears, and then press OK.

Can receive but not send faxes

These are possible solutions. Try one or more of the following:

Check mode selection

To make sure that the printer is set for sending check to see if the light is on.

If the light is not on, press on the printer control panel.

Check document placement

Load the original document setting into the Automatic Document Feeder (ADF) or facedown on the scanner glass.

Check the Dial Prefix setting

1 From the printer control panel, press .

2 Press the arrow buttons until **Fax Setup** appears, and then press OK.

3 Press the arrow buttons until **Dialing and Sending** appears, and then press OK.

4 Press the arrow buttons until **Dial Prefix** appears, and then press OK.

5 To change the setting, press the arrow buttons until the prefix that you want appears, and then press OK.

If you have not yet created a setting for the setting prefix:

a Press the arrow buttons until **Create** appears, and then press OK.

b Using the keypad, enter the prefix to be dialed before each telephone number, and then press OK to save the setting.

Check Speed Dial number

- Check to make sure Speed Dial has been programmed for the number that you want to dial. For more information, see the instructions for setting up Speed Dial.
- As an alternative, dial the telephone number manually.

Make sure the printer detects dial tone

- See the instructions for sending a fax while listening to a call for hook dial.
- Check the Dial buttons setting:

1 Listen for a dial tone. If you hear a dial tone but the printer hangs up without dialing, this means it did not recognize the dial tone.

2 From the printer control panel, press .

3 Press the arrow buttons until **Fax Setup** appears, and then press OK.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a test page, fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to j.mp/faxtest — it is a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a larger version.

To test the receive functionality of your fax machine, point your web browser to FaxZero.com. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Internet Fax Services

Never miss another fax. No machine required. It's as easy as email!

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

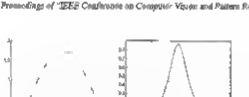

Figure 3. Computation of the curvature of $\sqrt{3}\cos(\frac{1}{2}) - \pi/2 \leq t \leq \pi/2$. Left: The sample points and their tangent planes. Right: The computed curvature at the sample points and the true curvature of the function. The value of the integral approximation is 59.8285 degrees (converted from radians).

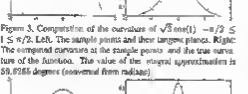

Figure 4. Same as above but with a denser sampling. The value of the integral approximation is 59.8001 degrees (converted from radians).

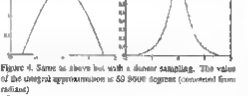

Figure 5. Same as above but with an even denser sampling. The value of the integral approximation is 59.8001 degrees (converted from radians).

2.2. Smoothness of a set of Points

In previous sections we showed that we can accurately measure the smoothness of a curve by evaluating (17) when the points and their normals are known. In practice the normals $v_{\mathbf{p}}$ are not known but will be computed by optimizing the tangent lines. However equation (0) shows that if the sampling rate is small enough then optimizing over $v_{\mathbf{p}}$ will yield the correct solution. This can be seen by noting that if we minimize (10) with respect to $v_{\mathbf{p}}$ then the dominant term $v_{\mathbf{p}}^{\mathrm{T}}(\mathbf{q}(t_i) - \bar{t})$ (assuming sufficiently high sampling rate) vanishes if $v_{\mathbf{p}}$ is perpendicular to the tangent $\dot{\mathbf{q}}(t_i)$. Hence $v_{\mathbf{p}}$ will approach the true normal when the sampling distance approaches zero. Therefore we take

$$\min_{(v_{\mathbf{p}_1}\ v_{\mathbf{p}_2}\ \ldots)\ \|v_{\mathbf{p}_i}\|=1,\ \forall i} \sum_{i=1}^{m} \sum_{j \in \mathcal{N}(i)} \frac{|\mathbf{p}_j - \mathbf{p}_i|}{|\mathbf{p}_i \quad \mathbf{p}_j|} \tag{17}$$

as our measure of smoothness of a set of points. Here $\mathcal{N}(i)$ represents some predefined neighborhood of the point i. In equation (17) the neighborhood of i is $i + 1$, however for general point clouds the nonuniformity of the points is not known and therefore the neighborhood will in practice consist of nearby located points (see section 2.3). Note that since we are assuming that the points $\mathbf{p}_i$ are fixed the above reconstruction problem is separable and each normal could be optimized by itself. However in general we will also assume that the points are noisy in which case $\mathbf{p}_i$ will also depend on all normal

Figure 6 shows the solutions obtained when optimizing (17) for two different sampling rates. Here we are using both forward and backward distances and therefore (17) should evaluate to approximately 180 degrees (when converted from radians). Even at the crude sampling rate of Figure 6, the sum in (17) is close to the true value.

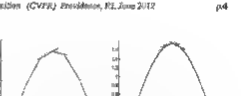

Figure 6. Estimated tangent planes for noisily measured data points at two different sampling rates. Left: The energy of the solution is 2.9221 (which corresponds to 118.8578 degrees) Right: The energy of the solution is 2.0364 (which corresponds to 110.5419 degrees)

2.3. Energy

Next we consider the full problem of regularizing 2D-point clouds We consider $\hat{\mathbf{p}}_i$ to be noisy measurements of the true points $\mathbf{p}_i$. We will estimate the $\mathbf{p}_i$ and the curve implicitly represented by the tangent lines $L_i = (\mathbf{n}_{\mathbf{p}_i}\ \mathbf{d}_{\mathbf{p}_i})$ by minimizing the pairwise energy

$$\min_{L} \sum_{i} \sum_{j \in \mathcal{N}(i)} w_{ij} E_{\mathrm{s}}(l_i\ l_j) + \mu \sum_{i} E_{\mathrm{d}}(l_i) \tag{18}$$

Here the minimum is taken over the set of tangent lines.

The data term E_{d} measures the quality of the estimation of $\mathbf{p}_i$. As mentioned before this term is application dependent, and should be chosen depending on what type of noise we may expect. In the 2D case we will use

$$E_{\mathrm{d}}(l_i) = (\mathbf{n}_{\mathbf{p}_i}\mathbf{p}_i + \mathbf{d}_{\mathbf{p}_i})^2 \tag{19}$$

which is the squared distance between the measured 2D point and its orthogonal projection on the tangent line. It is straight forward to use other data terms that would prefer certain directions and positions For example in the 3D case a data term based on photoconsistency could be used However in this work we are mainly interested in 3D point clouds and we do not assume that any other knowledge than the point measurements (such as/we are available

How Can I Test My Fax Machine?

Submitted by Smart Computer User on December 9, 2008 - 12:00pm

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to FaxTry http://faxtry.net/ — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: http://faxzero.com/ this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Red Cabbage Microwaved

1 pound red cabbage (about a third to a half of a small cabbage)
1 tablespoon butter (1/2 oz wt.)
1/2 tablespoon vinegar (1/2 oz wt.)
1 1/2 tablespoons stock (1/2 oz wt.)
1/2 teaspoon salt
Pinch sugar

Remove the coarse outer leaves from the cabbage. Cut the cabbage wedge into half. Remove the core completely. Slice the remaining cabbage quarters THINLY. Wash the sliced cabbage by dunking it in a large container of water then draining.

In the bottom of a glass or ceramic 2-quart container place all ingredients except the cabbage. Swish the salt and sugar around in the liquid to dissolve. Add the cabbage. Cover and cook in an 1100-watt microwave oven on HIGH (100%) for 8 minutes 45 seconds per pound, stirring once.

Let rest 2 1/2 minutes.

Drain cabbage and serve.

reached the correct temperature, and you can apply **Cronasil 43F** at the end of the joint.

Melt a few drops of **Cronasil 43F** and push the alloy with your flame across the joint. Go to the back side of the joint and continue to push the alloy across the back of the joint. Explain that the capillary action allows you to use very little material but still get a very strong joint.

Let the tabs cool, and turn them upside down, placing the V shape into the vice. Grip the brass tab about half way in the jaws of the vice and tighten securely, flattening the V. Notice that the joint holds, even as the brass bends!

Take a hammer and strike the joint several times, further illustrating the strength of the bond.

100 Civics Questions and Answers with MP3 Audio (English version)

The 100 civics (history and government) questions and answers for the naturalization test are listed below. The civics test is an oral test and the USCIS officer will ask the applicant up to 10 of the 100 civics questions. An applicant must answer 6 out of 10 questions correctly to pass the civics portion of the naturalization test.

On the naturalization test, some answers may change because of elections or appointments. As you study for the test, make sure that you know the most current answers to these questions. Answer these questions with the name of the official who is serving at the time of your eligibility interview with USCIS. The USCIS Officer will not accept an incorrect answer.

Although USCIS is aware that there may be additional correct answers to the 100 civics

Dear Sir/Madame

Thank you for agreeing to participate in the Community Pharmacy Placement by providing an opportunity to our student currently enrolled in the Pharmacy Technician Program at Centennial College in the School of Community & Health Studies.

During this work experience we ask that you and your staff guide the learning of the student. The student is expected to work closely with the pharmacy personnel and will therefore be introduced to the Pharmacy Technician role in this particular practicum setting. Once the student displays success in meeting practicum objectives you may provide more opportunities for the student to assume independent activities.

Please provide the student with 35-40 hours of work experience per week totalling 160 hours ranging in shifts from days to evenings and including weekends. Provide the student with an opportunity to respond to on line education queries as this is very difficult to duplicate and present in a classroom setting. It is also recommended that the student is provided with feedback twice during their placement. If at all possible please discuss the final evaluation with the student during the last week. Please complete and return the evaluation form via fax to the college and the original can be returned to the student.

For the protection of participating agencies, Centennial College provides liability insurance coverage for our students and for all claims whatsoever for damages or injuries incurred during the student(s) practicum period

Thank you very much for your assistance to the student, and to pharmacy education. If you have any questions or comments regarding the student or the Pharmacy Technician Program please do not hesitate to contact me

Please also note that no financial remuneration is required

Sincerely

Cherryl Dean

Qualified Default Investment Alternative Participant Notice

You have the right to direct the investment of retirement plan contributions among the investment options offered under the retirement plan. Properly investing retirement contributions can be as important for planning your future retirement income. You should consider your investment direction decision carefully. This notice provides information regarding where contributions will be invested if the retirement plan for your benefit will be directed in the absence of your investment election. You may direct the investment of the retirement funds by visiting www.mypsp1.com.

Investment Option Default

If you have not provided complete, up to date direction as to how the account set up for you under the retirement plan is to be invested, the account will be directed under automatic rules. You need to understand these rules and make sure that you are comfortable with them or that you take action to direct the investment of the account according to your preferences. These rules state that if we do not have complete investment direction from you, the retirement funds in the account and new contributions for which we do not have directions will be directed to the applicable Principal Trust℠ Target Date Fund (Principal Management Corporation provides non-discretionary advisory services to Principal Trust regarding these funds) based on your current age and the date set on of normal retirement date under the plan, which is 65. Your directions must be received at the Corporate Center of Principal Life Insurance Company.

So, the table below will identify the Principal Trust Target Date Fund that will apply based on your current age and when you will reach the plan's normal retirement date. For information on how you may make an investment direction election please see the "Right to Direct" section below.

Normal Retirement Date	Principal Trust℠ Target Date Funds
2004 or earlier	Principal Trust Income Fund R6
Between 2005 and end of 2012	Principal Trust Target 2010 Fund R6
Between 2013 and end of 2017	Principal Trust Target 2015 Fund R6
Between 2018 and end of 2022	Principal Trust Target 2020 Fund R6
Between 2023 and end of 2027	Principal Trust Target 2025 Fund R6
Between 2028 and end of 2032	Principal Trust Target 2030 Fund R6
Between 2033 and end of 2037	Principal Trust Target 2035 Fund R6
Between 2038 and end of 2042	Principal Trust Target 2040 Fund R6
Between 2043 and end of 2047	Principal Trust Target 2045 Fund R6
Between 2048 and end of 2052	Principal Trust Target 2050 Fund R6
2053 or later	Principal Trust Target 2055 Fund R6

Note: neither the principal nor the underlying assets of the Principal Trust Target Date Funds are guaranteed at any time, including the target date, and investment risk remains at all times.

Please see the attached investment information or the Investment Option Summary included in the enrollment workbook for important information about the Principal Trust Target Date Funds that will apply as the default investment option. You will find information including, but not limited to, related objectives, risk and return characteristics, fees and expenses and certain affiliations of Principal Trust Company and the nondiscretionary investment adviser Principal Management Corporation.

Right to Direct

If you do not want retirement funds to be directed as indicated above, then you may elect to direct the retirement funds to investment options under the retirement plan by visiting The Principal Web site at www.mypsp1.com and logging into the account or by calling 1-800-547-7754.

HP Customer Support

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capabilities of your fax machine, follow the directions below:

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the **Automatic Reports** option to **Error Only** before attempting a test fax. This way, even if the test fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963)
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you with a five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Dear Dr Shahinfar

I had the pleasure of seeing Account Test. This is a 12-year old patient who is diabetic. She has no diabetic retinopathy and I therefore needs no treatment at this time. I will continue to monitor her and keep you updated on her progress.

Sincerely

Shahin Shahinfar MD

Tres Leches Cake

Recipe courtesy Gonzalo de La Paz, Four Seasons, Punta Mita, Mexico

In a medium size bowl whip the eggs and sugar until very light and fluffy. Add in the zest and gently fold in the flour. Pour the batter into a greased 10-inch round cake pan and bake until golden, about 20 minutes. Remove the cake from the pan and allow to cool. Return the cake to the pan.

To make the milk mixture, pour all of the ingredients into a medium size pot and bring to a boil.

To assemble the cake, use a small cup and pour the hot milk mixture over the cake and allow to soak for at least 20 minutes, pressing down on the cake to make sure it is absorbing the milk mixture. To garnish the cake, whip the heavy cream and top the cake with the whipped cream. Add the berries decoratively.

Labradoodle Puppy Care: Labradoodle Grooming

HOME

Back to Labradoodle Care

A Labradoodle can have a medium to long coat with just a scissor cut once or twice a year. Special attention is need when the puppy is 7 to 12 months as his adult coat emerges. At this time, the coat is prone to mat requiring extra attention. The following are suggestions to help puppy and adult grooming.

General Body Area

1. Use a slicker brush over the entire coat
2. Work through the coat with a stainless steel long handled comb or a nine-tine mat comb with handle and thumb rest
3. Remove mats with thinning shears followed by a brushing or comb through. Or use regular scissors and cut the mat in strips with scissors working from the loose end of the mat up towards the skin. Once in strips, comb out the matt with the nine-tine mat comb

Tush area

1. Brush with slicker
2. Thin all mats and brush, comb or pull them out
3. Trim under the tail with a 10" blade shaver
4. Taper hind quarters to tail gradually with shaver or scissors to give a large full chest area narrowed to the tail.

Ears

1. Pull all hair in ear canal and shave underside of ear near ear canal
2. Thin out or shave the hair on the neck just under the ears or they may lay flat
3. Thin outside of ear flap to desired length.
4. Ears need to be cleaned with ear wash at least monthly. Call the vet if ears emit a sour or vinegar smell, or have a blackish wax near the canal.

NEW. IMPROVED. And does even more work for you!

The *mailstation* 2™ system is equipped with smarter technology to eliminate guesswork.

This new mailing system allows you to manage your mail online. You can refill postage, update postal rates and more right from your PC. It also integrates easily with the USPS Shipping Assistant® which calculates those complicated shape-based postage rates for you—ensuring your mail gets delivered.

EASIER-TO-USE
Connects to your PC for online postage refills and postal updates quickly and conveniently.

SAVES MONEY.
Built-in scale calculates and sets correct postage automatically so you never overpay.

FASTER
In just 15 minutes, you can print postage for over 150 postcards, letters or packages.

WORRY-FREE
USPS Shipping Assistant® integration ends guesswork by determining complex shape-based rates.

Hail Mary

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima

When you receive this email say a Hail Mary and ask for a special favor

"Hail Mary, full of grace, The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen." (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

I am looking to put the APC Single Sided 84" Performance Vertical Cable Manager (AR8665) between these two racks. Will it mount cleanly?
I am looking to put 4 zero U PDUs inside the vertical cable manager Do I need to buy anything else to mount these? Will they all fit?

Can I also add the AR8680 cable divider to segregate power from data cabling inside the vertical cable manager?
Can I also add the AR8444 fiber spools inside the vertical cable manager to better organize our fiber patch cables?

Can I hook the AR8652 to the end of one of the racks to hold two zeroU PDUs?

Printer Test Instructions There are five items to check on this page.

1. The two circular graphics at the top of the page allow you to determine the relative resolution of your printer. The greater the resolution of your printer, the more clearly you will be able to see the rays of the circle.

2. This is a sampling of TrueType sizes as they appear on your printer.

3. Use the appearance of the three color boxes to verify the color printing capabilities of your color printer.

4. This is a sampling of different font sizes.

5. A three horizontal bar going across the bottom of the page. It allows you to check the consistency of your printer toner and color drum across the entire page.

IMPORTANT!

You must scan this alignment page for best print quality

STEP 1 Lift the lid. Place this alignment page face down on the right front corner of the glass. Close the lid.

STEP 2: Press OK.

Then the Golden One rose and walked to the hedge as if they had heard a command in our eyes. The two other Street Sweepers of our brigade were a hundred paces away down the road. And we thought that International 4-8818 would not betray us, and Union 5-3992 would not understand. So we looked straight upon the Golden One, and we saw the shadows of their lashes on their white cheeks and the specks of sun on their lips. And we said:

"You are beautiful, Liberty 5-3000."

Their face did not move, and they did not avert their eyes. Only their eyes grew wider, and there was laughter in their eyes, and it was not laughter over us, but over things we could not guess.

Then they asked:

"What is your name?"

"Equality 7-2521," we answered.

"You are not one of our brothers, Equality 7-2521, for we do not wish you to be."

We cannot say what they meant, for there are no words for their meaning, but we knew it without words and we knew it then.

"No," we answered, "nor are you one of our sisters."

"If you are as among scores of women, will you look upon us?"

"We shall look upon you, Liberty 5-3000, if we see you among all the women of the earth."

Then they asked:

"Are Street Sweepers sent to different parts of the City or do they always work in the same places?"

"They always work in the same places," we answered, "and no one will take it a road away from us."

"Your eyes," they said, "are not like the eyes of any among men."

And suddenly, without cause for the thought which came to us, we felt cold, cold to our stomach.

"How old are you?" we asked.

They understood our thought, for they lowered their eyes for the first time.

"Seventeen," they whispered.

MAIN IDEA

Here's what I think.

Seaworld should continue to do this Orca shows but let this employees know there safe as well.

Evidence to back up my reasons

Here are my REASONS!

1. These are very RARE events over a long time

Blackfish focuses on rare events over a 40 year span

2. A single visitor thought of would safe for the whales.

Not ONE visitor thought the whales where mistreated.

3. There is nobody saying all the contributions Seaworld has done

No acknowledgment to the good things Seaworld has done

Strong Finish!

The killer Whales are FINE.

COUNTER ARGUMENTS

You COULD argue that...

People may get hacked

...but here's the WEAKNESS...

people know this and do it anyway.

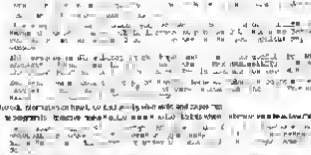
How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.



Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

The hypothetical commands `show w` and `show c` should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w` and `show c`; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Over inburgering gesproken, hebben we one ondertussen opgegeven voor een cursus voor mijn vrouw en is ze enthousiast om Nederlands te leren. Het is het eisen dat vooraf nederlands geleerd wordt wat mij tegenstaat. Hoewel net als bij inveering van het emzetten in een voorwaardelijke leuing van de studiebaurs dit in eerste instantie mij in elk geval zeer enl erechi leek (eeker gezien leen elle mensen die ik kende weren begonnen een de studie toen det risiko er nog niet wes!)
Zo zijn de inburgeringseisen die de toeieiling ven mijn vronw plots voorwaardelijk meekten op mij overgekomen (onterecht) Om na vier jaar getreuwd te zijn plots ven je recht om in Nederland te wonen met je partner beroofd te worden vond ik niet terecht Ik vind det det pas iu mag gaan veer menseu d e den pes truwen zodat je dat vanlaveru weet Ik heb bij mijn partnerkenee immers geen rekening knnnen heuden met de taelknobbel ven mijn vrouw en zo nek niet We greppen weleens del als ze verwechte in Nederland le kunnen wonen en ik del rk uist verwachte in heer dorp te kunnen wonen wes heeft heel veel meenden ligdsverkes, stress en zorgen met zich meegebracht, enkel echteref is le zeggen dat ik de tgd dus beter bestead had aan het Nederleuds leren vau mpu vrouw die daar op del moment niet enthonsiest voor wes

Canon U.S.A., Inc. LIMITED WARRANTY -- (USA Only)

The limited warranty set forth below is given by Canon U.S.A., Inc. ("Canon USA") and applies to the new or refurbished Canon-brand product ("Product") packaged with this limited warranty, when purchased and used in the United States only.

The Product is warranted against defects in workmanship and materials under normal use and transportation for a 1 year warranty period from the original purchase. Product returned to a Canon USA Service Facility ("CSF"), with proof of purchase, may be repaired or replaced (with new or refurbished Product, as determined by the Canon USA repair facility of the CSF's choice) at no charge for parts or labor during the applicable warranty period of the Product. A listed period of warranty for repairs or replacements of Product does not extend the original warranty period of the Product. A listed period of warranty for repairs or replacements of Product does not extend the original warranty period of the Product. The warranty covers only normal use, transportation, and use in accordance with the Product's instructions. The warranty does not cover: (a) cosmetic damage, including but not limited to scratches, dents and broken plastic on ports; (b) damage caused by use with non-Canon products, including but not limited to non-Canon batteries; (c) damage caused by accident, abuse, misuse, flood, fire, earthquake or other external cause; (d) damage caused by operating the Product outside the permitted or intended uses described by Canon USA, including but not limited to exposure to excessive heat, extreme cold, high humidity or extreme weather conditions, excessive sand or dirt, excessive shock or vibration, or exposure to liquid; (e) damage caused by service (including upgrades and expansions) performed by anyone who is not a representative of Canon USA or a Canon USA Service Facility ("CSF"); (f) damage caused by improper installation, failure to follow operating or maintenance instructions, failure to perform recommended user maintenance, failure to use Canon USA-specified supplies or parts, or failure to perform periodic maintenance; (g) damage caused by connection to improper voltage supply, power line surge, lightning, excessive voltage fluctuation or power failure; (h) damage caused by software, data or media used with the Product; (i) damage caused by the combination of the Product with other products not specified by Canon USA; (j) damage to or loss of parts in transit; (k) damage caused by failure to maintain adequate airflow around the Product; (l) damage caused by failure to follow the Product's instructions or failure to perform preventive maintenance; (m) damage caused by spilling food or liquid on the Product; (n) damage caused by the use of the Product for commercial or institutional purposes (including but not limited to rental purposes); (o) damage caused by improper handling or shipping of the Product; (p) damage caused by unauthorized attempts to repair the Product; (q) damage caused by unauthorized modification of software or system settings during the repair of the Product; (r) damage caused by improper data backup before repair of the Product; (s) damage caused by the failure to remove from the Product any third-party software, peripherals, media, parts, or components; (t) damage caused by improper packaging when returning the Product; (u) damage caused by failure to follow any applicable import or export laws, regulations or treaties; (v) damage caused by removal of any identification marks (including but not limited to serial number plates); or (w) any other cause that does not relate to a defect in materials or workmanship of the Product. This warranty also does not cover normal wear and tear, regular maintenance or preventive maintenance. This warranty also does not cover any Product on which warranty stickers or Product serial numbers have been removed, altered or rendered illegible.

This limited warranty shall only apply if the Product is used in accordance with compatible computer systems, peripheral equipment and software. Canon USA shall have no responsibility for such systems and for compatibility issues between such systems and the Product. Canon USA's sole responsibility with respect to such systems is limited to providing information about the Product's compatibility with such systems, as set forth in Canon USA's then-current specifications for the Product. Canon USA shall have no responsibility for any damage to, loss of, or failure of such systems caused by the Product's incompatibility with such systems, regardless of whether Canon USA has provided information about the Product's compatibility with such systems.

This limited warranty shall only apply if the Product is used with genuine, unmodified, non-refurbished, non-remanufactured and non-counterfeit consumables, including but not limited to batteries, toner cartridges, ink cartridges, ribbons, drums, fusers, print heads, staples and paper ("Consumables"). Canon USA shall have no responsibility for any damage to, loss of, or failure of Consumables caused by the use of non-genuine, modified, refurbished, remanufactured or counterfeit Consumables, regardless of whether Canon USA has provided information about the Consumables' compatibility with the Product. Canon USA's sole responsibility with respect to Consumables is limited to providing information about the Consumables' compatibility with the Product, as set forth in Canon USA's then-current specifications for the Product. Canon USA shall have no responsibility for any damage to, loss of, or failure of Consumables caused by the Product's incompatibility with such Consumables, regardless of whether Canon USA has provided information about the Consumables' compatibility with the Product.

The limited warranty set forth in this paragraph shall not apply to: (a) any Product or Product part that has been repaired or replaced by anyone who is not a representative of Canon USA or a CSF; (b) any Product or Product part that has been modified without the written permission of Canon USA; (c) any Product or Product part that has been used in combination with unauthorized third-party hardware or software; (d) any Product or Product part that has been used with any product not sold by Canon USA, including but not limited to any Consumables not sold by Canon USA; (e) any Product or Product part that has been used with any Consumables that have been refilled, recycled, remanufactured, refurbished, modified or tampered with; (f) any Product or Product part that has been used with any Consumables that have been used beyond the end of their recommended lifespan; How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Check the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully. It will automatically answer and spit out the test fax.

Many types of food are organic, i.e. hidden to the environment, and require time and attention to find. Some types are found are more easy to detect than other types, and some herds provide some sort of benefit than other types. Clearly, the *talent* that amount to an adaptive genetic contribution during a typical day will have a greater chance of surviving and out-competing others. Thus, it makes sense that animals should chose to divide their time and attention between food types in such a way as to maximize the total gain over the given time period available for foraging.

Setting up a model

Suppose that there are two types of food available in the environment. We will define a variable that represents the amount that an animal can devote on finding a given food type.

- Let x = *attention devoted to finding* food of some type. Assume that $0 < x < 1$ with $x = 1$ represent an animal devoting all of its time to finding food and $x = 1$ half attention devoted on finding that food.
- Let $P(x)$ denote the probability of finding the food given that attention x is devoted on the task. Then $0 < P < 1$, as is commonly assumed for a probability. $P = 0$ means that the food is *super hard*, and $P = 1$ means that the food is always found.
- Consider foods that have the property $P(0) = 0, P(1) =$. This means that if no attention is payed ($x = 0$) then there is no probability on finding the food ($P = 0$) whereas if full attention is given to the task $x = 1$ then there is always success ($P = 1$).
- Suppose now that there is more than one food type in the animals environment. Then we will assume that the attentions paid on finding these foods, x and y sum up to 1 i.e. since attention is limited, $x + y = 1$ or simply, $y = 1 - x$

In figure 7.0, we show typical examples on the reasons versus attention curves for four different types of food labeled 1 through 4. On the horizontal axis, we show the attention $0 < x < 1$ and on the vertical axis, we show the probability of success on finding food, $0 < P < 1$. We observe that all the curves have to connect the features we have described. Full success for full attention and no success for no attention.

However the four curves shown here differ in their values on intermediate levels of attention.

Questions:

1. What is the difference between foods on type 1 and 4?
2. Which food is easier to find type 3 or type 4?
3. What role is played by the convexity of the curve?

You will have observed that some curves, notably those concave down such as curves 2 and 4 are results, indicating that the probability of finding food increases a lot just by increasing the attention by a little. Those opportune foods that are relatively easy to find. In other cases, where the function is concave up, (as was 1 and 3), we were devote much more attention on the task before we get an appreciable increase in the probability of success. Such opportune foods that are harder

Figure 7.0: The probability, P of finding a food depends on the level of attention x devoted on finding that food. We show possible curves for four types of foods, some easier to find than others.

to find, are more cryptic. We now explore what happens when the attention is subdivided among several food types.

Suppose that two foods available in the environment, one contribute relative levels of nutrition 1 and h per unit. We wish to examine for what subdivision on the attention would the total nutritional value gained be as large as possible.

Suppose that $F(x)$ and $Fy(y)$ are probabilities on finding food of type 1 or 2 given that we spend x attention or y is looking for that type.

Let $x =$ the attention devoted on finding food of type 1. Then attention $y = 1 - h$ can be devoted to finding food of type 2.

Suppose then the relative nutritional values of the foods are 1 and H

Then the total value gained by splitting up the attention between the two foods is.

$$V(x) = P_1(x) + H\ P_2(1\ \ x).$$

Example 1:

As an example, let us take the case that the probability of finding the food types is given by the simple power functions,

$$P_1(x) = x^2 \qquad P_2(y) = y^3$$

We note that these functions satisfy $P(0) = 0$ $P(1) = 1$ in accordance with the shapes shown in Figure 7.0 Further, suppose that both foods are equally nutritious. Thus $H = 1$ and the total value is

$$V(x) = P_1(x) + H\ P_2(1\ \ x)^2 = x^2 + (1\ \ x)^3$$

We look for a max/min value of V. Setting $V'(x) = 0$ we get (using the Chain Rule)

$$V'(x) = 2x + 3(1 = x)^2(-1) = 0.$$

We observe that a negative factor (-1) comes from applying the chain rule to the factor $1 = x)^2$. The above equation can be expanded into a simple quadratic equation:

$$-3x^2 + 8x - 3 = 0$$

denial, what must be accomplished during incident scene operations to ensure a safe and effective response.

There are thirteen modules included in this training program, encompassing twelve classroom sessions, three case studies, three field laboratories and a series of supporting practical activities.

MODULE 1 Course Introduction

During this introductory presentation, training staff and instructors welcome participants to the program, provide background information concerning "New Mexico Tech and the training program, summarize course content, administer a pre-course knowledge survey and explain performance standards and expectations. Additionally, instructors will cover safety requirements governing participants' behavior in the classroom, on ranges and in the community.

MODULE 2 Terrorism and Energetic Materials

This module sets the stage for the contemporary use of explosives and incendiaries in terrorist attacks. Included are discussions of pertinent terminology, descriptions of terrorist targeting criteria, preparatory activity prior to attack, and tactics used by terrorists when employing explosives and incendiaries. The module will focus on assisting participants in developing an awareness of potential targets in their home communities, and in recognizing pre-attack indicators of a terrorist attack.

MODULE 3 Introduction to Energetic Materials

During this module, participants are introduced to basic explosive terms and processes. Included in the presentation is information concerning the components required to produce an explosive or incendiary event, the physical and chemical processes required to cause an explosion, and the physical consequences of an explosion.

MODULE 4 Recognition of Energetic Materials, Devices and Device Components

During this module, participants are introduced to commercial and military explosives and materials from which improvised explosives and explosive devices may be fabricated. The focus is on enabling the participants to identify these military and commercially available items during the conduct of their routine duty activities (such as fire inspections, emergency medical calls, routine law enforcement patrols) upon return to their communities. The participants are acquainted with the characteristics of these items in terms of their appearance, labeling, texture and smell.

MODULE 5 Responding to Pre-detonation Incidents

During this module, instructors describe appropriate actions for executing safe and effective response to bomb threat and suspicious item incidents and highlight critical decisions that must be made and problems that frequently develop. At the completion of the instructor presentation, participants complete a practical exercise and prepare to share their work with others in the class.

MODULE 6 Responding to Post-detonation Incidents

This module presents information concerning first responder actions at post-detonation incidents; situations where the response occurs after detonation of an explosive or activation of an incendiary device. The presentation includes discussion of practices, critical response actions (rescue, scene control, and evidence collection) using examples from past incidents, and includes a comprehensive Practical Exercise in which participants are required to apply skills and knowledge acquired during the module.

На Новый год туроператоры развернулись к России

Новогодние каникулы показали российский туристический рынок до неузнаваемости. Продажи внутренних туров резко крутнулись, операторов впервые за несколько лет просят продавать путевки в зарубеж, пусть отдаленный. Но развернуться на российском рынке после запрета двух самых массовых и популярных направлений — Турции и Египта — получается далеко не у всех. Туроператоры отмечают небольшую емкость отличий основных курортов, а также рост цен (15–18%) на их услуги. Из итогов общий опрос на гособщ на то России вырос всего на 10%, тратить в два раза меньше посла-

Fax Connection

Is a telephone wire connected to ***BOTH*** plugs going into the DSL wire?

One is for the telephone
One is for the fax, but we sometimes disconnect it to stop the fax's ringer from ringing

Test Fax by Sending a page to Hewlett Packard

1. Send a one page black and white text fax to (1-888-473-2963)

2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax

This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine Consult the user manual that came with the product for proper setup and configuration
